Decision of the Independent Liquor & Gaming Authority
Application for an amendment – on-premises licence – change of boundaries & new packaged liquor licence – Clarence All Press Pause

We **approve** the applications above under section 94 (amendment – on-premises licence) and section 45 (new packaged liquor licence) of the *Liquor Act 2007* (the Act) — with the conditions set out in Schedule 1.

Trading on a Sunday that falls on 24 December

If a Sunday falls on 24 December, the premises must not trade earlier than 10:00 am.

Statement of reasons

Overall, we are satisfied that the social impact of approving the application will not be harmful to the well-being of the local or broader community.

The decision achieves the aim of the Act to regulate the liquor industry to meet the community's expectations, needs, and aspirations, while also promoting a balanced and responsible development of the industry.

Our main findings

The local community for the purposes of this decision is Yamba. The broader community is the Local Government Area (LGA) of Clarence Valley.

Positive social impacts

The applicant seeks to operate a new packaged liquor licence. It will offer liquor of boutique nature which compliments the offerings already provided within the on-premises café and will primarily benefit those patrons that seek to purchase liquor after consuming it in the adjacent café.

The applicant also seeks to change the licence boundary of the existing on-premises licence (LIQO660033202) to facilitate the proposed packaged liquor licence.

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

Negative social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of the:

- premises being located in a high-density crime hotspot in the suburb for malicious damage and in a medium-density crime hotspot for alcohol-related assault
- higher crime rates in the suburb and LGA for all offence categories usually considered by us
- higher rate of alcohol-attributable deaths in the LGA compared to NSW
- indications of a below average level of relative socio-economic advantage in the suburb and LGA
- higher saturation rates of packaged liquor licences in the suburb compared to NSW

However, we are satisfied that these risks are reduced by the:

- small scale operation with moderate size of the premises and reduced trading hours
- lower rate of alcohol-attributable hospitalisations in the LGA compared to NSW
- fact that the premises will be co-located within the same building as the on-premises licence
- liquor products to be sold are limited to liquor of boutique nature
- harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

The material we considered

We considered the following material when making our decision:

- the application material — including evidence that stakeholders and the community were notified about the application
- a community impact statement (CIS)
- the plan of the licensed premises and any authorisations
- a plan of management for the licensed business
- a development consent for the premises
- statistics from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics on the socio-economic status, liquor licence density, alcohol-related crimes rates and health issues in the local and broader communities
- stakeholder submissions and the applicant's response them.

We also considered [Guideline 6](#) to assess the likely social impact to the local and broader community.

This decision will be published on the [Liquor & Gaming NSW website](#) in accordance with section 36C of the *Gaming and Liquor Administration Act 2007*.
