Digital iD®

How to check a Keypass in Digital iD™

Australia Post Digital iD™ is an acceptable form of photo ID.* A person can present it on their phone to prove who they are, face-to-face.

Here's how to check a Keypass in Digital iD™

Step 1: Check the Keypass in Digital iD™

- A photo is shown on the screen.
- The person's face matches the photo.
- The **18+** symbol appears to verify they are over 18

Step 2: Scan the QR code

Scanning is the safest way to verify that it's a genuine Keypass in Digital iD™.

- Scan the QR code using a phone or tablet with the Digital iD™ app.
- Check that it matches the person's details.
- Scan the QR code using online scanning machines.

Want to use your own scanning solution? Contact us at **commercial@digitalid.com**

Can't scan?

If you're not able to scan, ask the person to tap the screen – the ID photo should animate.

Learn more about accepting Digital iD™ at **www.DigitaliD.com**

*Keypass in Digital iD™ is accepted as proof of age to enter participating licensed venues and to purchase alcohol in all states and territories, except WA (and excluding takeaway alcohol in NT).
