Decision of the Independent Liquor & Gaming Authority

Application for the removal of a packaged liquor licence – Liquorland Macquarie Park

The Independent Liquor & Gaming Authority considered the application above, and decided on 22 January 2020 to **approve** the application under section 59 of the *Liquor Act 2007*, subject to imposing conditions as set out in Schedule 1.

Removal of the licence

Notwithstanding the approval of the application, the subject licence (LIQP700352086) remains at 240 Morrison Road, Putney subject to the same conditions and trading hours in force immediately before the approval of this application, until Liquor & Gaming NSW is notified that the licence has been removed.

Trading on a Sunday that falls on 24 December

Please note that in the case of any Sunday that falls on 24 December, the 6-hour closure period overrides the statutory provision that would otherwise allow the licence to trade from 8:00 AM. In accordance with the 6-hour closure period for the current licence, the proposed premises must not trade earlier than 9:00 AM.

Concise statement of reasons

A concise statement of reasons for this decision is attached at the end of this letter.

In the interest of efficient finalisation of determined matters in a high-volume liquor and gaming jurisdiction, the Authority will only produce a detailed statement of reasons for applications which are refused, partially approved or the subject of stakeholder objections.

A concise statement of reasons is produced for non-contested applications that have been approved by the Authority, in cases where a statement of reasons is required to be published for the application under section 36C of the *Gaming and Liquor Administration Act 2007*.

The concise statement of reasons briefly sets out the material considered by the Authority, the legislative requirements, and the Authority's key findings.

If you have any questions, please contact the case manager at

Decision	Approved under section 59 of the <i>Liquor Act 2007</i>
Decision date	22 January 2020

Material considered by the Authority

The Authority has considered the following material in determining the application:

- Application material, including evidence of notification to specified stakeholders and the community about the application;
- Category B community impact statement;
- Premises plan setting out the proposed boundaries of the licensed premises;
- Plan of management for the licensed business at the premises;
- Development consent for the premises;
- Statistics sourced from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics in respect of the socio-economic status, liquor licence density, alcohol-related crimes rates, and health issues in the relevant local and broader communities; and
- Stakeholder submissions in relation to the application, and the applicant's response to those submissions.

Legislative requirements

The Authority has considered the application in the context of the following sections of the *Liquor Act 2007* ("the Act"), and the associated clauses of the Liquor Regulation 2018:

- Section 3: Statutory objects of the Act and relevant considerations.
- Sections 11A and 12: Standard trading period for liquor licences and a mandatory 6 hour period during which liquor cannot be sold.
- Sections 29-31: Specific provisions in respect of a packaged liquor licence.
- Section 40: Minimum procedural requirements for a liquor licence application to be validly made.
- Section 45: Criteria for granting a liquor licence.
- Section 48: Requirements in respect of a CIS, including a requirement that the Authority must not approve the application unless it is satisfied, having regard to the CIS and other

available information, that the overall social impact of doing so will not be detrimental to the well-being of the local or broader community.

- Section 59: Requirements for an application to remove a liquor licence to another premises and the determination of such an application.

The Authority has also had regard to its Guideline 6 in considering the overall social impact of approving the application pursuant to section 48 of the Act.

Key findings

Section 30

The Authority notes that that section 30 of the Act imposes certain requirements about the operation of a liquor sales area when a packaged liquor licence is exercised by a business whose primary purpose is not the sale of liquor for consumption away from the premises, such as a supermarket. The Authority further notes that Guideline 10 provides additional policy guidance as to the requirements of section 30.

Having regard to the applicant's submission and the supporting material provided, the Authority accepts that the proposed liquor facility is a distinct business operated independent of the adjacent Coles supermarket, and is therefore not captured by section 30 of the Act and the Authority's Guideline 10.

The Authority notes, however, that business models involving the operation of a liquor facility alongside a supermarket will be carefully assessed against section 30 and Guideline 10 on a case by case basis, and that any proposed design or layout intended to circumvent the requirements will not be considered favourably.

Local and broader community

In accordance with its Guideline 6, the Authority finds that the relevant local community for the purposes of this decision is the suburb of Macquarie Park, and the broader community is the Local Government Area of Ryde.

Positive social impacts

The Authority notes that the applicant proposes to move the licence to the Lachlan's Line Precinct, a new master planned commercial and residential development located between North Ryde and Macquarie Park train stations. The Authority considers that the removal of the packaged liquor licence to the proposed premises would likely benefit the local community through the provision of increased liquor access, choice and convenience.

Negative social impacts

The Authority accepts that the proposal may, over time, contribute to an increase in alcohol-related harm in the local and broader communities, including alcohol-fuelled violence, health problems and/or social and amenity issues, having regard to the:

- higher than average liquor licence density in the local and broader community;
- presence of crime hotspots in the local community;
- concerns raised by local licensing police in relation to stealing offences in bottle shops and underage drinking in a local reserve; and
- higher than average level of alcohol-attributable deaths hospitalisations in the broader community.

The Authority is nevertheless satisfied that these risk factors are sufficiently mitigated by the following:

- the removal of the licence within the LGA will not increase the density of packaged liquor licences in the broader community;

- absence of any objections from agency stakeholders or members of the community;
- relative socio-economic advantage in the local and broader community;
- lower than average level of alcohol-attributable deaths in the broader community; and
- harm minimisation measures set out in the plan of management and licence conditions as set out in Schedule 1.

Overall social impacts and conclusion

Having considered the positive and negative social impacts that are likely to flow from the applicant's proposal, the Authority is satisfied that the overall social impact of approving the application will not be detrimental to the well-being of the local or broader community.

The Authority is also satisfied that the other legislative requirements for the approval of the application have been met.

The Authority finds, having regard to the above, that approving the application is consistent with the statutory objects and considerations of the Act to regulate the liquor industry in line with the community's expectations, needs and aspirations, and facilitate the balanced and responsible development of the liquor industry and related industries.

Accordingly, the Authority approves the application under section 59 of the Act.
