STATEMENT OF REASONS

Our decision

We have considered the objects of the *Liquor Act 2007* (the Act) and the relevant legislative provisions and have approved the application under section 45 of the Act.

Overall, we are satisfied that the social impact of approving the application will not be harmful to the well-being of the local or broader community.

The decision achieves the aim of the Act to regulate the liquor industry to meet the community's expectations, needs, and aspirations, while also promoting a balanced and responsible development of the industry.

Our main findings

The local community for the purposes of this decision is Nelson Bay. The broader community is the Local Government Area (LGA) of Port Stephens.

Positive social impacts

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

The business sells speciality food items that include homemade pickles, chutneys, jams, boutique curry pastes and cheeses and there is also provision for take-home meals, including frozen pasta and a small range of boutique and organic liquor will be sold.

Negative social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities (such as violence, health problems or social and public amenity issues) because of the:

- one objection was received from a member of the public
- the premises is located within high-density hotspots in the suburb for non-domestic assault, malicious damage, and alcohol-related assault
- there are higher crime rates in Nelson Bay compared to NSW rates for all offence categories usually considered by the Authority, and
- there are higher rates of alcohol-attributable deaths in Port Stephens compared to NSW rates.

However, we are satisfied that these risks are reduced by the:

- relatively small size of the area in which liquor will be sold or supplied
- no agency objections were received
- SEIFA health data indicates an average level of relative socio-economic advantage and disadvantage in both Nelson Bay and Port Stephens
- there are lower saturation rates of packaged liquor licences in Nelson Bay and Port Stephens compared to NSW rates
- there are lower rates of alcohol-attributable hospitalisations in the Port Stephens compared to NSW
- the proposed trading hours are reduced compared to standard trading hours

- the applicant has consented to the specialised liquor condition in this regard, and
- the harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

The material we considered

We considered the following material when making our decision:

- The application material — including evidence that stakeholders and the community were notified about the application.
- A community impact statement (CIS)
- The plan of the licensed premises and any authorisations.
- A plan of management for the licensed business.
- A development consent for the premises.
- Statistics from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics on the socio-economic status, liquor licence density, alcohol-related crimes rates and health issues in the local and broader communities.
- Stakeholder submissions and the applicant's response them.

We also considered [Guideline 6](#) to assess the likely social impact to the local and broader community if we approved the application.

Yours sincerely
