STATEMENT OF REASONS

Our decision

We have considered the objects of the *Liquor Act 2007* (the Act) and the relevant legislative provisions and have approved the application under section 45 of the Act.

Overall, we are satisfied that the social impact of approving the application will not be harmful to the well-being of the local or broader community.

The decision achieves the aim of the Act to regulate the liquor industry to meet the community's expectations, needs, and aspirations, while also promoting a balanced and responsible development of the industry.

Our main findings

The local community for the purposes of this decision is Liverpool. The broader community is the Local Government Area (LGA) of Liverpool.

Positive social impacts

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

The ALDI supermarket is located within the Liverpool Plaza shopping centre which consists of 41 other tenancies. The liquor sales area will sit wholly within the supermarket and will principally provide a limited range of ALDI branded products including beers, wines and spirits.

Negative social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of:

- concerns raised by Police, Council and a member of the public about people congregating and consuming alcohol in and around Macquarie Mall which may be exacerbated by granting another liquor outlet
- the high-density crime hotspots in Liverpool for all offence categories usually considered by the Authority
- the crime rates for alcohol-related domestic assault and malicious damage in Liverpool being high in comparison to NSW rates, and
- indications of a below average level of relative socio-economic advantage/disadvantage in Liverpool compared to NSW.

However, we are satisfied that these risks are reduced by:

- the relatively small (41m²) liquor sales area
- the crime rates for alcohol-related non-domestic assault and alcohol-related disorderly conduct in Liverpool and the Liverpool LGA being low in comparison to NSW rates
- the lower saturation of packaged liquor licences in Liverpool and the Liverpool LGA compared to the NSW average
- the lower rates of alcohol-attributable hospitalisations and deaths in the Liverpool LGA compared to the NSW average
- the indication of above average level of socio-economic advantage/disadvantage in the Liverpool LGA compared to the NSW rates
- the relatively moderate trading hours

- the support from shopping centre management to minimise anti-social behaviour in Macquarie Mall
- the harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

The material we considered

We considered the following material when making our decision:

- the application material — including evidence that stakeholders and the community were notified about the application
- a community impact statement (CIS)
- the plan of the licensed premises and any authorisations
- a plan of management for the licensed business
- a development consent for the premises
- statistics from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics on the socio-economic status, liquor licence density, alcohol-related crimes rates and health issues in the local and broader communities, and
- stakeholder submissions and the applicant's response them.

We also considered [Guideline 6](#) to assess the likely social impact to the local and broader community if we approved the application.

Yours sincerely
