2. Legislative framework, statutory objects and considerations

In determining the application, the delegate has considered relevant provisions of the Act, including the objects and considerations that are prescribed by section 3, which state:

3 Objects of Act

- (1) The objects of this Act are as follows:
 - a. to regulate and control the sale, supply and consumption of liquor in a way that is consistent with the expectations, needs and aspirations of the community,
 - b. to facilitate the balanced development, in the public interest, of the liquor industry, through a flexible and practical regulatory system with minimal formality and technicality,
 - c. to contribute to the responsible development of related industries such as the live music, entertainment, tourism and hospitality industries.
- (2) In order to secure the objects of this Act, each person who exercises functions under this Act (including a licensee) is required to have due regard to the following:
 - a. the need to minimise harm associated with misuse and abuse of liquor (including the harm arising from violence and other anti-social behaviour),
 - b. the need to encourage responsible attitudes and practices towards the promotion, sale, supply, service and consumption of liquor,
 - c. the need to ensure that the sale, supply and consumption of liquor contributes to, and does not detract from, the amenity of community life.

3. Statutory tests

- (1) In determining an application for a licence, under section 45(3) of the *Liquor Act 2007*, the delegate must also be satisfied that:
 - a. the applicant is a fit and proper person to carry on the business or activity to which the proposed licence relates,
 - b. practices will be in place as soon as the licence is granted that ensure, as far as reasonably practicable, that liquor is sold, supplied or served responsibly on the premises and that all reasonable steps are taken to prevent intoxication on the premises and that those practices will remain in place, and
 - c. if development consent is required under the *Environmental Planning and Assessment Act 1979* (or approval under part 3A or part 5.1 of that Act is required), to use the premises for the purposes of the business or activity to which the proposed licence relates – that development consent or approval is in force.

4. Community impact test

- (1) Under section 48(5) of the *Liquor Act 2007*, the delegate must not grant a licence, authorisation or approval of a kind prescribed by section 48(2) of the Act unless the Authority is satisfied, having regards to the Community Impact Statement, where required, and any other matter the delegate is made aware of during the application process, that the overall impact of the licence, authorisation or approval in question being granted, will not be detrimental to the local or broader community.
- (2) The test applying under section 48(5) relates to delegated decisions in relation to the granting or removal of:
 - a. a small bar licence,
 - b. a packaged liquor licence (limited to telephone/internet sales),
 - c. an on-premises licence relating to a restaurant that, in the case of a new licence, includes an application for a primary service authorisation,
 - d. an on-premises licence relating to a karaoke bar, a catering service or a vessel,
 - e. an application for a producer/wholesaler licence that, in the case of a new licence, includes an application for a drink on-premises authorisation
 - f. an application for ongoing extended trading hours to permit the sale of liquor after midnight in relation to any of the above licence types.
- (3) The Community Impact Statement provides the Authority with information about the views of relevant stakeholders and other aspects of the local community in which the proposed licensed premises is to be located. This includes, for example, the proximity of the licensed premises to hospitals or health facilities, nursing homes, schools and places of worship.
- (4) Local and Broader Community - for the purposes of this decision, the delegate is satisfied that the relevant "local community" is the community within the suburb of Mosman, and the "broader community" is the state of New South Wales, due to the nature of the licence.

5. Analysis of Submissions and other Materials

- (1) Having reviewed all of the material, I am satisfied that this application for an online packaged liquor licence is unlikely to result in any significant increase in alcohol-related harms in the local community.
- (2) The proposed licensed premises comprises a home office in a residential dwelling, at which online orders will be received and processed. Liquor will be stored and dispatched from a separate location.
- (3) The applicant has obtained written confirmation from Mosman Council advising that the intended use of the premises is classified as a 'home occupation' under the Mosman

Liquor & Gaming

Local Environmental Plan 2012, and as such Council has no objection to the proposed use of the premises.

- (4) The sale of liquor will be limited to the taking of orders over the telephone or by facsimile or mail order, or through an internet site. Customers will not be able to attend the premises to purchase liquor.
- (5) Police made a submission raising no concern, however proposed two licence conditions, which were duly considered by the Authority.
- (6) Two submissions were received from members of the public raising concerns in respect of the operation of a liquor outlet in a residential locale; however the applicant adequately addressed these concerns. Further, licence conditions have been imposed that ensure that the granting of the licence will not impact on the peace and good order of the local community.
- (7) The licence will be exercised in accordance with a Plan of Management and a number of licence conditions that detail the measures in place to ensure the responsible service of alcohol.
- (8) I am satisfied that the statutory advertising requirements have been met.

6. Overall social impact

(1) Positive benefits

The granting of the licence will potentially result in positive economic benefits for the applicant, and will increase the variety and competitiveness of liquor retailers, which will benefit consumers.

(2) Negative impacts

This licence application is for a home office at which orders will be processed, with liquor to be stored and dispatched at from a separate location. Customers will not be attending the premises to browse, purchase or taste products. The nature of the licence sought means that there are unlikely to be any amenity impacts on the local community.

7. Conclusion

- (1) I am satisfied that procedural fairness was afforded to the applicant and interested parties regarding the decision whether or not to grant the application, as all of those required to be notified of the application were provided with the opportunity to make written submissions and all submissions received were considered and helped inform this decision.
- (2) In accordance with section 45(3)(a) of the Act I am satisfied that the proposed licensee is a fit and proper person to carry on the business or activity to which the proposed licence relates.

Liquor & Gaming

- (3) Having considered the venue management plan and related material, under section 45(3)(b) of the Act, I am satisfied that practices will be in place at the premises as soon as the licence is granted that ensure, as far as reasonably practicable, that all reasonable steps are taken to prevent intoxication on the premises, and that those practices will remain in place.
- (4) Consistent with section 45(3)(c) of the Act requiring development consent from the local council, I am satisfied that the required development consent or approval is in force.
- (5) In making this decision under delegation of the Authority, all statutory objects and considerations prescribed by section 3 of the Act were considered and accordingly, I have determined to grant with conditions the licence application.
