Statement of reasons

Decision

1. On 19 January 2018, Number One Gun Concrete Pty Ltd (“Applicant”) lodged with Liquor & Gaming NSW (“L&GNSW”), for determination by the Independent Liquor and Gaming Authority (“Authority”), an application (‘Application’) for a packaged liquor licence (‘Licence’) for the premises at Shop 1, 60-68 Stockdale Crescent, Abbotsbury NSW 2176 (‘Premises’).
2. The Authority considered the Application at its meeting on 16 May 2018 and decided to grant the Licence under section 45 of the *Liquor Act 2007* (“Act”).
3. In reaching this decision, the Authority has had regard to the relevant material before it, the legislative requirements under sections 3, 11A, 12, 29-31, 40, 45 and 48 of the Act, and the relevant provisions of the Liquor Regulation 2008.

Material considered by the Authority

4. The Authority has considered the Application, the accompanying community impact statement (“CIS”), and all submissions received in relation to the Application.
5. The Authority is satisfied that procedural fairness was afforded to the Applicant and interested parties regarding this decision, as all parties required to be notified of the Application were provided with the opportunity to make submissions.
6. In accordance with its Guideline 6, the Authority has also had regard to relevant L&GNSW liquor licensing records and data published by Bureau of Crime Statistics and Research (“BOCSAR”), NSW Department of Health, and Australian Bureau of Statistics (“ABS”).
7. A list of the material considered by the Authority is set out in the Schedule.

Legislative framework

8. The Authority has considered the Application in the context of the following legislative provisions.

Objects of the Act

9. The objects of the Act, as set out in section 3, are to regulate the supply of liquor in line with the expectations, needs and aspirations of the community, and facilitate the balanced and responsible development of the liquor industry and related industries.
10. In the pursuit of these objectives, section 3 requires the Authority to, in exercising its powers under the Act, have due regard to the need to minimise harm associated with misuse and abuse of liquor, encourage responsible liquor supply practices, and ensure that the supply of liquor does not detract from the amenity of community life.

Trading hours and 6-hour closure period

11. Section 12 of the Act sets out the standard trading period for various types of liquor licences. Additionally, section 11A imposes a condition on all licences prohibiting the sale of liquor by retail on the licensed premises for a continuous period of 6 hours during each consecutive period of 24 hours.

Minimum procedural requirements

12. Section 40 of the Act prescribes the minimum procedural requirements for a liquor licence application to be validly made to the Authority.

Fit and proper person, responsible service of alcohol, and development consent

13. Section 45 of the Act provides that the Authority may only grant a licence if it is satisfied that:
- a) the applicant is a fit and proper person to carry on the business to which the proposed licence relates,
 - b) practices will be in place to ensure the responsible service of alcohol and to prevent intoxication on the premises, and
 - c) the applicable development consent required for use of the premises for the proposed business is in force.

Community impact statement

14. Section 48 of the Act requires certain applications, including an application for a packaged liquor licence, to be accompanied by a CIS prepared in accordance with the relevant requirements.
15. Section 48(5) provides that the Authority may only grant the licence if it is satisfied that the overall social impact of doing so will not be detrimental to the well-being of the local or broader community, having regard to the CIS and any other matter before it.

Provisions specific to a packaged liquor licence

16. Further legislative provisions specific to a packaged liquor licence are set out in sections 29, 30 and 31 of the Act.
17. Section 29 prescribes the period and manner in which a licensee can sell or supply liquor.
18. Section 30 requires a separate liquor sales area to be set up on the licensed premises if its primary business is not to sell liquor for consumption away from the premises.
19. Section 31 sets out certain restrictions on the granting of the licence to general stores, service stations and take-away food shops.

Key findings

20. Having regard to the information before it and relevant legislative requirements, the Authority makes the following findings in relation to the Application.

Validity, procedural and trading hour requirements

21. The Authority is satisfied on the material before it that:
- a) the Application has been validly made and meets the procedural requirements under section 40 of the Act,
 - b) the proposed trading hours for the Premises meet the requirements under sections 11A and 12 of the Act in respect of trading and 6-hour closure periods,
 - c) if the Licence were to be granted, liquor would be sold and supplied in a separate liquor sales area at the Premises, and in accordance with the authorisation conferred by a packaged liquor licence, as required by sections 29 and 30 of the Act, and
 - d) section 31 of the Act does not apply to the Application as the Premises is not intended to operate as is contemplated by the section.

Fit and proper person, responsible service of alcohol, and development consent

22. Pursuant to section 45 of the Act, the Authority is also satisfied that:
- a) the Applicant is a fit and proper person to carry on the business to which the proposed licence relates, given that no concerns regarding the Applicant's probity were raised upon consultation with relevant law enforcement agencies,

- b) practices would be in place from the commencement of licensed trading at the Premises to ensure the responsible serving of alcohol, having regard to the Plan of Management for the Premises and the special conditions to be imposed on the licence, and
- c) the requisite development consent is in force, based on the Notice of Development Consent 478/99 in respect of the Premises, issued by Fairfield City Council on 31 March 1999.

Community impact statement

23. Pursuant to section 48 of the Act, the Authority finds that the CIS submitted with the Application was prepared in accordance with the relevant requirements. The Authority has taken into consideration the CIS and other available information in making the findings below about the social impact of the Premises on the local and broader communities.
24. For the purpose of this decision and consistent with its position in *Guideline 6*, the Authority is satisfied that the relevant “local community” is the community within the suburb of Abbotsbury, and the relevant “broader community” comprises Fairfield City Council Local Government Area (“the LGA”).

Positive social impacts

25. The Authority is satisfied, on the basis of the Application, CIS and additional material provided by the Applicant that granting the licence will provide some reasonable public benefit by way of increased convenience to those members of the local and broader communities who wish to engage in “one-stop” shopping by purchasing packaged liquor products whilst grocery shopping at this IGA supermarket in Abbotsbury.
26. The Authority notes that Abbotsbury suburb and the LGA have a lower density of all types of liquor licences compared to respective NSW averages. The only other packaged liquor outlet in Abbotsbury is limited to the sale of liquor only by means of taking orders over the telephone, by facsimile, mail order or through an internet site. The Authority accepts that an additional packaged liquor licence would provide members of the local community with a conveniently located bottle shop facility.
27. The Authority has considered the submissions received from the Secretary and NSW Police, which raised no objections to the application. NSW Police did, however, request the imposition of several licence conditions including a condition restricting the types of liquor products permitted to be sold, to which the applicant has consented.
28. The Authority also notes that the applicant has consented to conditions that there would not be any sales of casks or flagons containing more than 4 litres of alcohol, no high alcohol ready to drink spirits, pre-made ready to drink shots, limited overproof spirits, or high alcohol beers above 6.1% alcohol volume.
29. The Authority also notes the letter of support received from a resident of Abbotsbury, which expresses support for the proposal on the basis of the following contentions:
 - the increased convenience of purchasing liquor with groceries and one-stop shopping;
 - there is currently no bottle shop located in the suburb, requiring residents to leave the area in order to purchase packaged liquor;
 - the submitter does not envisage any negative impacts; and
 - the closing hours do not extend into the late evening.

Negative social impact

30. The Authority has given thought to the single submission from another resident of Abbotsbury objecting to the Application. The resident objected to the Application on the basis that:
- the local demand would not be likely to sustain a viable liquor outlet;
 - there would be increased traffic and risk to pedestrians;
 - the availability of liquor may create problems relating to offensive behaviour at the local park;
 - the liquor outlet may result in an escalation of crime rates at the shopping centre; and
 - the quiet suburb of Abbotsbury is not a suitable location for a liquor outlet.
31. The Authority notes these claims were not supported by any objective data or trend analysis; and that these issues were not raised by NSW Police.
32. The Authority has considered the BOCSAR crime maps for the year ending December 2017 which show that the Premises is not located within crime hotspots for alcohol-related assault, domestic assault, non-domestic assault or malicious damage to property.
33. The Authority also notes that the BOCSAR crime data for Abbotsbury suburb and Fairfield LGA indicates that rates of alcohol-related domestic assault, alcohol-related non-domestic assault, malicious damage to property and alcohol-related offensive conduct for the year ending December 2017 are all significantly lower than the average NSW incident rates for these crime types over the same reporting period.
34. The Authority notes the NSW Healthstats which indicate that alcohol-related hospitalisations and deaths in Fairfield LGA have remained lower than the state average for the last ten years of available data.
35. The Authority notes from the SEIFA data for 2016 Index of Relative Socio-economic Advantage and Disadvantage that Abbotsbury suburb is relatively advantaged in relation to all suburbs across the state, whereas the LGA is significantly disadvantaged in comparison to other LGAs in NSW.
36. The Authority accepts that there may be a risk that if the Licence were to be granted, liquor sold or supplied at the Premises will, over time, contribute to an increase in alcohol related crime and health issues in the local and broader communities.
37. The Authority is however satisfied that the risk are adequately mitigated by the following:
- a) the prevailing level of alcohol related crime and health issues in the community is relatively low;
 - b) the only objecting submission was not supported by any objective data or trend analysis and the other submissions received from key stakeholders consulted, such as NSW Police and NSW Health did not object the Application;
 - c) the relatively small licensed area, which will help to further reduce any adverse impact its operation may have on the amenity of the community by having a reduced supply of liquor products available;

- d) the fact that the Applicant has consented to all proposed conditions, and committed to adhering to the measures set out in the Plan of Management to ensure the responsible serving of alcohol; and
- e) the Applicant's confirmation that all staff involved in the sale and supply of liquor will complete an approved Responsible Service of Alcohol course, and measures will be in place to ensure minors do not gain access to liquor.

Overall social impact

38. Having considered the positive and negative social impacts that are likely to flow from granting the Licence, the Authority is satisfied that the overall social impact of granting the Licence would not be detrimental to the well-being of the local and broader communities.
39. The Authority is also satisfied that a decision to grant the Licence would be consistent with the objects of the Act to regulate liquor supply and facilitate responsible industry development in line with community expectations and needs.
40. Accordingly, the Authority has decided to grant the Licence under section 45 of the Act.
