A statement of reasons for this decision is attached at the end of this letter.

### **Trading between 10 pm and 11 pm, Monday to Saturday**

Pursuant to section 12 of the *Liquor Act 2007*, the standard trading period during which liquor can be sold for consumption away from the licensed premises must end at 10 pm on all trading days. ## Statement of reasons

### Decision

1. On 18 October 2017, Round Corner Pty Ltd (“Applicant”) lodged an application (“Application”) with Liquor & Gaming NSW (“L&GNSW”), for determination by the Independent Liquor and Gaming Authority (“Authority”). The Application sought a hotel liquor licence (“Licence”) with an extended trading authorisation (“ETA”) and a minors area authorisation (“MAA”) for the premises at 1 Kenthurst Road, Dural, NSW 2158 (“Premises”).
2. The Authority considered the Application at its meeting on 11 April 2018. Following further consultation with the applicant, the Authority granted the Application on 12 June 2018.
3. Preliminary notification of this decision was sent to the Applicant on 13 June 2018, together with the licence document for the Premises. This document provides reasons for the decision to grant the licence.
4. In reaching this decision, the Authority has had regard to the relevant material before it, the legislative requirements under sections 3, 11A, 12, 14, 15, 15A, 17, 40, 45, 48, 49, 51 and 121 of the *Liquor Act 2007* (“Act”), and the relevant provisions of the Liquor Regulation 2008 (“Regulation”).

### Material considered by the Authority

4. The Authority has considered the Application, the accompanying community impact statement (“CIS”), and all submissions received in relation to the Application.
5. The Authority is satisfied that procedural fairness was afforded to the Applicant and interested parties regarding this decision, as all parties required to be notified of the Application were provided with the opportunity to make submissions.
6. In accordance with its *Guideline 6*, the Authority has also had regard to relevant L&GNSW liquor licensing records and data published by Bureau of Crime Statistics and Research (“BOCSAR”), NSW Department of Health, and Australian Bureau of Statistics (“ABS”).
7. A list of the material considered by the Authority is set out in the Schedule.

### Legislative framework

8. The Authority has considered the Application in the context of the following legislative provisions.

### Objects of the Act

9. The objects of the Act, as set out in section 3, are to regulate the supply of liquor in line with the expectations, needs and aspirations of the community, and facilitate the balanced and responsible development of the liquor industry and related industries.
10. In the pursuit of these objectives, section 3 requires the Authority to, in exercising its powers under the Act, have due regard to the need to minimise harm associated with misuse and abuse of liquor, encourage responsible liquor supply practices, and ensure that the supply of liquor does not detract from the amenity of community life.

### Trading hours and 6-hour closure period

11. Section 12 of the Act sets out the standard trading period for liquor licences. Additionally, section 11A imposes a condition on all licences prohibiting the sale of liquor by retail on the licensed premises for a continuous period of 6 hours during each consecutive period of 24 hours.

### Minimum procedural requirements

12. Section 40 of the Act prescribes the minimum procedural requirements for an application for a liquor licence to be validly made to the Authority.

#### Fit and proper person, responsible service of alcohol, and development consent

13. Section 45 of the Act provides that the Authority may only grant a licence if it is satisfied that:

- a) the applicant is a fit and proper person to carry on the business to which the proposed licence relates,
- b) practices will be in place to ensure the responsible service of alcohol and to prevent intoxication on the premises, and
- c) the applicable development consent required for use of the premises for the proposed business is in force.

#### Community impact statement

14. Section 48 of the Act requires certain applications, including an application for a Licence and an application for an ETA in relation to a Licence, to be accompanied by a CIS prepared in accordance with the relevant requirements.

15. Section 48(5) provides that the Authority may only grant the licence if it is satisfied that the overall social impact of doing so will not be detrimental to the well-being of the local or broader community, having regard to the CIS and any other matter before it.

#### Provisions specific to a hotel licence

16. Further legislative provisions specific to a Licence are set out in sections 14 to 17 of the Act and in the Regulation.

#### Provisions specific to ETA and MAA

17. Section 51 of the Act prescribes the minimum procedural requirements for a licensee to make a valid application for a licence related authorisation. The section also provides that when determining an application for a licence related authorisation, the Authority has the same powers in relation to the application as it has in relation to an application for a licence.

18. Section 49 of the Act provides the Authority with the power to grant an ETA to a licensee to permit the sale or supply of liquor for consumption in the licensed premises during a specified period outside the standard trading hours.

19. Subsection 49(8) provides that the Authority may only grant the ETA if it is satisfied that:

- a) practices are and will remain in place to ensure the responsible service of alcohol and to prevent intoxication on the premises, and
- b) the extended trading period will not result in undue disturbance of the quiet and good order of the neighbourhood of the premises.

20. Section 10A of the Regulation requires the CIS for an ETA in relation to a hotel licence to address matters relating to gambling activities on the licensed premises during the period that the Authorisation is proposed to be in force.

21. Section 121 of the Act provides that the Authority may grant an MAA to a hotel licensee to permit minors to use part of the hotel while in the company of a responsible adult.

#### **Key findings**

22. Having regard to the information before it and the relevant legislative requirements, the Authority makes the following findings on the Application.

#### Validity, procedural and other requirements

23. The Authority is satisfied on the material before it that:

- a) the Application has been validly made and meets the procedural requirements under sections 40 and 51 of the Act, and
- b) the proposed trading hours for the Premises meet the requirements under sections 11A, 12 and 14 of the Act in respect of trading and 6-hour closure periods.

Fit and proper person, responsible service of alcohol, and development consent

24. Pursuant to sections 45 and 49 of the Act, the Authority is also satisfied that:

- a) the Applicant is a fit and proper person to carry on the business to which the proposed licence relates, given that no concerns regarding the Applicant's probity were raised upon consultation with relevant law enforcement agencies,
- b) practices would be in place from the commencement of licensed trading at the Premises to ensure the responsible serving of alcohol and prevent intoxication on the premises, having regard to the Plan of Management dated 16 October 2017 for the Premises and the licence conditions to be imposed, and
- c) the requisite development consent is in force, based on the Notice of Determination of Development Application No. 1441/2017/HA in respect of the Premises, issued by the Hills Shire Council on 22 August 2017.

Community impact of proposed gambling activities

20. As the Application involves an application for an ETA in relation to a hotel licence, clause 10A of the Regulation applies. Accordingly, the CIS for the Application is required to address matters relating to gambling activities on the Premises during the period that the ETA sought is proposed to be in force, being between 7:00 AM to 10:00 AM on Sundays ("the ETA period").

21. The Applicant stated in the CIS that Keno and TAB facilities and 30 gaming machines are intended to be made available on the Premises and accessible during the ETA period. The Applicant also acknowledged that the social impact of the proposed gambling activities was not addressed in the CIS.

22. The Authority accepts that there were no gambling activities on the Premises at the time the Application was lodged, and that if the Licence and ETA were to be granted, gambling activities may not take place on the Premises immediately thereafter. The Authority however does not accept the Applicant's contention that these would justify a finding that matters relating to gambling activities during the ETA period need not or cannot be addressed in the current CIS.

23. The Authority finds that, given the Applicant's stated intention to facilitate gambling activities on the Premises during the ETA period at some point in the future, the CIS must comply with the requirement under clause 10A of the Regulation.

24. The Authority does not accept the Applicant's contention that it would be more appropriate to address the social impact of the proposed gambling activities in a future application directly associated with those activities, such as an application for gaming threshold increase. The Authority notes that:

- a) to do so would be inconsistent with the requirement under clause 10A of the Regulation,
- b) an application for gaming machine threshold increase may or may not require the social impact of the proposed gaming machines to be addressed, depending on the circumstances of that application, and
- c) the commencement of Keno or TAB services on the Premises would not require any separate approval from the Authority, and the social impact of these services during the ETA period may not be able to be considered if not addressed in the current CIS.

25. Having regard to the above, the Authority finds that the Applicant's CIS in relation to the ETA fails to meet the requirement under clause 10A of the Regulation and, accordingly, has not been prepared in accordance with the regulations and requirements of the Authority, as required by section 48(4) of the Act.
26. The Authority also finds that the Applicant has failed to provide sufficient information to enable a full assessment under section 48(5) of the Act of whether the overall social impact of granting the ETA would be detrimental to the community's wellbeing. The Authority considers the proposed gambling activities during the ETA period to be an important aspect of the operation of the ETA sought. The Authority also notes that the kinds and sources of information relevant to its consideration of social impact under section 48(5) of the Act, including the social impact of gambling activities, are set out in its *Guideline 6*.
27. For these reasons, the Authority has determined that no gaming machine, TAB or Keno facilities may be operated on the licensed premises during the ETA period. This will be enforceable by way of a licence condition, which requires a full CIS to be undertaken should the applicant seek to change or revoke this condition. The CIS must include matters relating to gambling activities on the licensed premises during the ETA period.

#### Other aspects of the community impact statement

28. Apart from the issue identified above in respect of matters relating to gambling activities on the Premises during the ETA period, the Authority finds that the CIS was prepared in accordance with the relevant requirements pursuant to section 48(4) of the Act.
29. The Authority has taken into consideration the CIS and other available information in making the findings below about the overall social impact of granting the Licence, ETA and MAA on the local and broader communities.
30. For the purpose of this decision and consistent with its position in *Guideline 6*, the Authority is satisfied that the relevant "local community" is the community within the suburb of Dural, and the relevant "broader community" comprises The Hills Shire Local Government Area ("the LGA").

#### Positive social impacts

29. The Authority notes that the density of hotel licences in both Dural and the LGA is considerably lower than the NSW state average.
30. The Authority notes that the Premises is located within the Dural commercial town centre, known as Round Corner. The Authority accepts the applicant's contention that the Dural town centre provides an important function as a larger rural centre to the greater Hills Shire rural area, through the provision of supporting retail services.
31. The Authority notes that there is only one hotel licence in Dural: The Dural Hotel/Motel, a large traditional style hotel, situated outside of the Dural town centre, 1.5 kilometres in distance from the Premises.
32. The Authority accepts that the proposed business model at the Premises, of a small and intimate venue with a focus on providing craft beer and smoked meat, slow cooked in-house, will be unique in the LGA, thereby providing the local and broader community with an alternative style of licensed venue.
33. The Authority accepts that the premises will commence trading at 7:00 AM to enable the service of breakfast, but that liquor will not be sold or supplied prior to 10:00 AM. The Authority notes that this will be enforced by way of a licence condition.

34. The Authority notes that NSW Police Force (“Police”) concedes that the Premises is located in an area with minimal alcohol-related crime and as such does not object to the Licence, ETA or MAA.
35. The Authority is satisfied that granting the Licence, ETA and MAA would be in line with the expectations, needs and aspirations of the community, and contribute to the balanced and responsible development of the liquor industry and the related restaurant and catering industry.

#### Negative social impacts

30. The Authority notes from the BOCSAR data that:
  - a) for the year to September 2017, the Premises was not located in any hotspots for incidents of alcohol-related assault, domestic assault, non-domestic assault or malicious damage to property; and,
  - b) for the two years to September 2017, the rates of alcohol-related assault (domestic and non-domestic) and malicious damage to property in both Dural and the LGA were significantly lower than the corresponding NSW figures.
31. The Authority also notes from the most recent HealthStats NSW data available at the time of its consideration that the LGA recorded a lower than average level of alcohol attributable deaths for the period 2012-13, and a higher than average level of alcohol attributable hospitalisations for the period 2013-15.
32. The Authority finds that these statistics do not raise any immediate concern in respect of the prevailing level of alcohol-related crime in the community, but some concern in respect of hospitalisations associated with liquor consumption in the LGA.
33. The Authority notes that whilst no objection in relation to the Application was received from any member of the community or the other stakeholders consulted, during the public consultation for the development consent, Council received 80 submissions from local residents objecting to the application, and two in support. Further, the Daily Telegraph published an article on 22 May 2017 titled “Not all hoppy with hotel”, which noted that a group of local residents opposed the proposal, citing concerns with the amount of parking, site access, noise and the installation of gaming machines.
34. Further, the Authority notes that whilst Police did not oppose the Application, Police did, however, raise concerns in relation to traffic and parking, noise, alcohol-related crime and the availability of transport late at night.
35. The Authority accepts that some of these concerns will be addressed in part by the provision of a 10 seat courtesy bus to patrons, and by a number of DA and licence conditions designed to mitigate any noise impacts.
36. The Authority notes that live music, acoustic sets, DJs, nightclub-style entertainment or similar are prohibited by the development consent.
37. The Authority accepts that, over time, there is a risk that liquor sold from the Premises may contribute to an increase in the level of alcohol-related crime, health, amenity and other social issues in the community.
38. The Authority is nevertheless satisfied that this risk would be adequately mitigated by the Applicant’s adherence to the practices and procedures in the Plan of Management, and the proposed licence conditions in respect of the responsible service of alcohol and prevention of intoxication on the Premises.

## Overall social impact

31. The Authority has had regard to the ABS data available at the time of its decision that as at 2011, Dural was among the most advantaged suburbs, and the LGA among the most advantaged Local Government Areas, in NSW on the Index of Relative Socio-economic Advantage and Disadvantage. The Authority notes that this data is seven years old and does not draw any specific inferences from it, other than to note that it does not raise any apparent concerns.
32. Having considered the positive and negative social impacts that are likely to flow from approving the Application, the Authority is satisfied that the overall social impact of granting the Licence, the ETA and the MAA would not be detrimental to the well-being of the local and broader communities.
33. The Authority is also satisfied that a decision to grant the Licence, ETA and MAA would be consistent with the objects of the Act to regulate liquor supply and facilitate responsible industry development in line with community expectations and needs.
34. Accordingly, the Authority has decided to grant:
  - a) the Licence under section 45 of the Act,
  - b) the ETA under section 49 of the Act, and
  - c) the MAA under section 121 of the Act.
