## STATEMENT OF REASONS

### Material Before the Authority

1. The following is a summary only of the material and submissions before the Independent Liquor and Gaming Authority (Authority) for the purposes of publication of a statement of reasons, as soon as practicable, in a high-volume jurisdiction.
2. In making this decision, the Authority has considered the application for a new small bar licence (Application), the accompanying community impact statement (CIS) and all submissions received in relation to the Application. As foreshadowed in Authority Guideline 6, the Authority has also had regard to relevant liquor licensing records and licence density data maintained by Liquor and Gaming NSW (LGNSW), Bureau of Crime Statistics and Research (BOCSAR) crime data and Australian Bureau of Statistics (ABS) data pertaining to the local and broader communities sourced by licensing staff from publicly available sources. That material is listed and briefly summarised in the Schedule.

### Summary of Further Submissions

3. Submission from the City of Sydney Council (Council) dated 11 February 2016. In this one-page letter Council advised that it holds no concerns with the Application while development consent determination number D/2015/283 is in force with respect to the Premises permitting its use as a small bar known as 'Retail 2'. The development consent imposes conditions restricting the hours of operation (for planning purposes) to between 7:00am and 11:00pm Mondays to Saturdays and between 8:00am and 10:00pm on Sundays and a maximum capacity of 15 patrons.
4. Submission from Sergeant Paul Ryan, Sydney City Local Area Command (LAC) of the NSW Police Force (Police) dated 14 June 2016. In this seven-page letter Police advise that they do not object to the Application but note their previous objection to licensing the Premises as a restaurant. That restaurant is also owned by the Applicant and situated on neighbouring premises at Shop 1, 18 College Street, Darlinghurst. Police noted that over the past two years the rate of assault incidents occurring on licensed premises within the State Suburb of Sydney was significantly higher than for the New South Wales as a whole. Police propose conditions requiring the cessation of the sale or supply of alcohol 15 minutes prior to closing, that no drinks commonly referred to as shots, shooters, slammers or bombs be sold or supplied, that the Premises not be themed nor operate as a nightclub, that the licensee join and be an active participant in the local liquor accord, that the licensed business comply with NSW Police Crime Scene Preservation Guidelines, that an adequate crowd control and queuing system be implemented, that signage advising capacity limit and noise minimisation be applied and that CCTV cover principal entrances and areas within the Premises.

5. Report to the Authority dated 8 August 2016 from the Compliance Branch of LGNSW. In a brief submission LGNSW advise that they consider the proposed small bar licence to be of low risk noting that there is no history of non-compliance by the Applicant with the associated on-premises licence, that a comprehensive Plan of Management has been submitted, and that the maximum number of patrons is 15.
6. Email from the Applicant to licensing staff dated 16 June 2016 confirming the Applicant's consent to the imposition of a licence condition limiting licensed trading to between 12:00 noon to 11:00 pm Monday through Saturday and from 12:00 noon to 10:00pm on Sunday. The Applicant also consents to a condition or proviso that the licence not be exercised until evidence is provided to the Authority that the Premises is complete and ready to trade; that liquor will not be sold during the standard 6-hour daily closure period of 4:00 am to 10:00 am, that the licensed business will not operate on the Premises with a greater overall level of social impact than could reasonably be expected from the information provided in relation to the Application; that the licensee or representative must join and be an active participant in the local liquor accord; that a maximum number of 15 patrons may be permitted on the Premises; that no live entertainment be permitted on the Premises and that the Premises must be operated at all times in accordance with the Plan of Management dated 7 June 2016.
7. The following material was attached to the Applicant's submission dated 16 June 2016:
  - a) Certificate of Advertising in accordance with the *Liquor Regulation 2008* (Regulation).
  - b) Registration of Business Name "The Resident Dining".
  - c) The Plan of Management dated 7 June 2016.
  - d) Copy of the front page of the Notice of Intention to Apply for a Licence.
8. The CIS notes that a standard form submission was made from Roads and Maritime Services (RMS) dated 9 February 2016 during the CIS process, and that no response was received from the local Aboriginal community, the NSW Department of Health, the NSW Department of Community Services or any other community stakeholders or special interest groups.

### **Legislative Framework**

9. The legal requirements for the making of a valid application for a liquor licence are provided by section 40 of the Act and the *Liquor Regulations 2008* (Liquor Regulations). The power to grant an application for a new liquor licence is provided by section 45 of the Act.
10. Any person exercising functions under the Act must also have regard to the objects and considerations set out in section 3 of the Act which states:
  - (1) *The objects of this Act are as follows:*

- (a) *to regulate and control the sale, supply and consumption of liquor in a way that is consistent with the expectations, needs and aspirations of the community,*
  - (b) *to facilitate the balanced development, in the public interest, of the liquor industry, through a flexible and practical regulatory system with minimal formality and technicality,*
  - (c) *to contribute to the responsible development of related industries such as the live music, entertainment, tourism and hospitality industries.*
- (2) *In order to secure the objects of this Act, each person who exercises functions under this Act (including a licensee) is required to have due regard to the following:*
- (a) *the need to minimise harm associated with misuse and abuse of liquor (including harm arising from violence and other anti-social behaviour),*
  - (b) *the need to encourage responsible attitudes and practices towards the promotion, sale, supply, service and consumption of liquor,*
  - (c) *the need to ensure that the sale, supply and consumption of liquor contributes to, and does not detract from, the amenity of community life.*
11. Section 48(5) of the Act requires the Authority, in certain circumstances, to consider a CIS (as well as any other matter the Authority is made aware of during the application process) in order to ensure that the overall impact of the licence, authorisation or approval being considered will not be detrimental to the local or broader community.
12. Section 48(3A) of the Act provides that a small bar application is not required to be accompanied by a CIS if a) development consent is required, and b) local police and the Secretary are notified by the Applicant of the making of the application for development consent or of a variation to the application, not more than 2 working days after the application is made. The Applicant did not notify police or the Secretary of the development application within two days of lodgement of that application and therefore the concession afforded by section 48(3A) does not apply in this instance.
13. Section 48(5) of the Act requires that the Authority must not grant the Application unless satisfied that “the overall social impact of the licence, authorisation or approval being granted will not be detrimental to the well-being of the local or broader community”.
14. For the purposes of this decision and consistent with its longstanding practice and its position in *Guideline 6*, the Authority is satisfied that the relevant “local community” is the community within the State suburb of Sydney while the “broader community” comprises the responsible Local Government Area (LGA), the City of Sydney LGA.

### **Analysis of Relevant Facts**

15. The Authority is satisfied, on the basis of the Application material and CIS before it that, for the purposes of Section 40 of the Act, the Application has been validly made and minimum procedural requirements with regard to the Application, CIS and community consultation have been satisfied.

16. The Authority is satisfied, for the purposes of section 45(3)(a) of the Act, that the Applicant is a fit and proper person to carry on the business of a small bar licenced venue of the kind proposed in the Application material on the basis of the material regarding the Applicant provided with the Application. This finding is also made on the basis that no issues of concern were raised with regard to the Applicant's probity following consultation with relevant law enforcement agencies, including Police and LGNSW.
17. The Authority is satisfied, for the purposes of section 45(3)(b) of the Act, that responsible service of alcohol (RSA) practices will be in place upon the commencement of licensed trading. This finding is made on the basis of the comprehensive *Plan of Management* dated 7 June 2016 provided by the Applicant.
18. The Authority is satisfied, for the purposes of section 45(3)(c) of the Act that the required development consent is in place for the proposed use of the Premises as a small bar, on the basis of consent for Development Application (DA) D/2015/283 issued by City of Sydney (Council), operable from 26 October 2015.

### **Social Impact – Positive Benefits**

19. The Authority is satisfied that the Applicant has demonstrated a significant positive case for the operation of a new small bar licensed premises on the site within the State suburb of Darlinghurst. This finding is made on the basis of the Application, the CIS and additional submissions made by the Applicant.
20. The Authority is satisfied that granting the Application will diversify the licensed entertainment and hospitality options available to both the local and broader communities and particularly the local community by providing a very small, intimate licensed bar.
21. The Authority is satisfied, on the basis of the Application and CIS provided by the Applicant, that while the new small bar will operate to serve both alcoholic and non-alcoholic beverages it also will promote and serve a variety of Chinese teas. That is, the bar will also provide a specialty service that provides a point of distinction with typical bars.
22. The Authority is satisfied that granting the Application will reasonably develop, in the public interest, the liquor industry in respect of the local and broader community in furtherance of the statutory object in section 3(1)(b) of the Act.
23. The Application and CIS also satisfy the Authority that the proposed business model will contribute to the responsible development of related industries, such as hospitality, for the purposes of section 3(1)(c) of the Act.
24. Noting there was no local opposition, the Authority is satisfied that this new enterprise will be consistent with the "expectations, needs and aspirations" of the communities, which is a statutory object of section 3(1)(a) of the Act.

### **Social Impact – Negative Impacts**

25. The Authority acknowledges that a small bar licensed premises, whose primary purpose is to sell or supply liquor, will more likely than not generate adverse social

impacts upon the community over time and may generate disturbances to local community and neighbourhood, whether or not such conduct rises to the level of criminality.

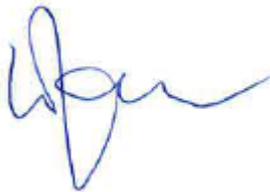

26. The Authority is reassured on the basis that Police and LGNSW did not object to the Application. The Police proposed a number of conditions which have been consented to by the Applicant (with slight variation).
27. The Authority receives considerable reassurance from the very small scale of the Premises, approximately 56 sqm in area and with a maximum patron capacity of only 15 persons.
28. The licensed hours sought by the Applicant are less extensive than those available during the standard trading hour period in that the Premises will not sell or supply liquor before noon and will not trade past 11:00pm on Monday to Saturday or past 10:00pm on Sundays. This is another factor that reduces the scope for this new licensed business to generate disturbance for the local community in the evenings.
29. There is prima facie cause for concern arising from the prevailing rates of alcohol related crime across the local and broader community. BOCSAR crime data from April 2015 to March 2016 detailing hotspots for the concentration of offences near the location of the Premises indicate that the Premises is located within high density hotspots for incidents of *domestic assault, non-domestic assault and malicious damage to property*.
30. The Authority also notes that the BOCSAR Crime data for the calendar year 2013 indicates that the Sydney LGA has substantially higher rates per 100,000 population of *alcohol related domestic violence related assault, non-domestic violence related assault, offensive conduct, assault police incidents and malicious damage to property* offences than NSW as a whole. This reflects the great many licensed premises servicing the great many residents, city workers and visitors to the City.
31. The Authority is satisfied on the basis of licence density data, that the licence density across the broader community of Sydney LGA is at lower rates in respect of full hotel licences, packaged liquor licences, club licences and on-premises licences. Small bar licences are not statistically significant.
32. The ABS Socio-Economic Indexes For Areas (SEIFA) data derived from the 2011 Census which indicated that Darlinghurst suburb ranked in the 9<sup>th</sup> decile on the Index of Relative Socio Economic Advantage and Disadvantage and Sydney LGA ranked in the 9<sup>th</sup> decile (with a decile ranking of 10 being the most advantaged).
33. Aside from the moderate licensed trading hours, the Authority has taken into account the additional harm minimisation measures, over and above the minimum requirements of the legislation, to reduce the risk for the Premises to generate negative social impacts from the operation of the business or the conduct of its patrons. These measures include comprehensive CCTV coverage, a requirement that the venue not operate in the mode of a nightclub, a restriction on the types of

liquor that may be sold at all times and a Plan of Management that is enforceable as a licence condition.

## Conclusion

34. The Authority is satisfied that procedural fairness was afforded to the Applicant and interested parties regarding the decision whether or not to grant the Application, as all of those required to be notified of the Application were provided with the opportunity to make written submissions and all submissions received were considered and helped inform this decision. The interested parties include NSW Police, the Licensee, Council, RMS, neighbouring occupiers, NSW Health and Family and Community Services and all other parties required to be consulted under the legislation.
35. Having considered together the positive benefits and negative impacts that the Authority is satisfied are likely to flow from granting the Application, the Authority is satisfied for the purposes of section 48(5) of the Act that the overall social impact of granting this licence would not be detrimental to the well-being of these local and broader communities.
36. The Application is granted pursuant to section 45 of the Act.
37. In making this decision the Authority has had regard to all of the statutory objects prescribed by section 3(1) of the Act and all of the considerations to which it must have regard under section 3(2) – including (a) the need to minimise harm associated with misuse and abuse of liquor (including harm arising from violence and other anti-social behaviour) (b) the need to encourage responsible attitudes and practices towards the promotion, sale, supply, service and consumption of liquor (c) the need to ensure that the sale, supply and consumption of liquor contributes to, and does not detract from, the amenity of community life.
