

# **CLASS 2 LOCAL IMPACT ASSESSMENT**

**WINNERS CIRCLE WALLSEND  
Wallsend Plaza Shops 29-31, 24 Kokera Street,  
Wallsend NSW 2287**

**Filed By:**  
LAS Lawyers & Consultants  
Suite 467, 317 Castlereagh Street  
Sydney NSW 2000

PO Box K1077  
Haymarket NSW 1240

Tel: 9280 4599  
Fax: 9281 6077

**1. Table Of Venue And Application Particulars**

<b>Premises</b>	Winners Circle Tavern & Bistro
<b>Address</b>	Wallsend Plaza Shops 29-31, 24 Kokera Street, Wallsend NSW 2287
<b>Licence Name</b>	Winners Circle Wallsend
<b>Licence Number</b>	LIQH400118155
<b>Local Government Area (LGA)</b>	Newcastle
<b>Neighbouring Local Government Area</b>	Lake Macquarie (north ward)
<b>Business Owner</b>	Flemington Investments Pty Ltd Phone: 9764 3500 Business Address: 1 Warabrook Boulevard, Warabrook NSW 2304 Postal Address: 268 Parramatta Road, Flemington NSW 2140
<b>Business Owner Representative</b>	LAS Lawyers & Consultants Phone: 9280 4599 Email: e.yoo@laslawyers.com.au
<b>Venue facilities</b>	Tavern, bistro, gaming room, TAB, Keno, Sky TV, Fox Sports
<b>Entertainment</b>	Raffles, football game tipping competitions, punters' club
<b>Current Gaming Machine Threshold</b>	20
<b>Proposed Increase Sought</b>	6 (low range)

## **2. Executive Summary**

2.1 The applicant seeks to increase the gaming machine threshold of the hotel by 6 pursuant to section 34 of the Gaming Machines Act 2001, thereby bringing the total gaming machine threshold of the premises to 26.

2.2 The subject premises is located at Wallsend Plaza Shops 29-31, 24 Kokera Street, Wallsend NSW 2287, within the bounds of the Newcastle LGA, and is known as the Winners Circle Wallsend.

2.3 The proposed increase is a low range increase and the hotel is located in the Newcastle LGA which is a band 3 area.

2.4 Regulation 155 of the Gaming Machines Regulation 2010 provides an exemption to a premises falling within the scope of the definition of a retail shopping centre where, among other factors, the shopping centre comprises less than 40 shops. In the present instance, the subject shopping centre contains less than 40 shops and accordingly is eligible for the exemption.

2.4 We submit that the intention behind the legislation is to minimise any potential harm of gaming machines on persons who might initially attend the shopping centre for reasons unrelated to gaming but ultimately become addicted to gaming.

2.5 We submit that the overall positive impact of this application on the local community is sufficient to mitigate any potentially detrimental impact of the proposed gaming machine threshold increase.

### **3. Map of Area – 1km radius**

#### ***3.1 Venue location***

Pursuant to reg. 39(1)(d) a map with a 1km radius around the venue is required showing the location of the venue and the location and name of any other licensed premises, any school, hospital or place of public worship, and any sporting or community facility, however, we note that a suitable map could not be generated to include the entire 1km radius without losing the identified locations of each of the abovementioned organisations. As such, please find below:

- (a) a map identifying the location of the venue with a 1km radius without enough detail to identify relevant streets (Fig. 1),
- (b) another map showing a 1km radius around the venue with only the major streets identified to demonstrate that the map at Fig 1 does indeed feature a 1km radius (Fig. 2), and
- (c) at paragraphs 2.2 – 2.6 requisite details for relevant organisations.

Fig. 1

Fig. 2

#### ***3.2 Location and name of any other licensed premises***

- Fire Station Hotel, Nelson Street, Wallsend NSW 2287
- Wallsend Diggers, 5 Tyrrell Street, Wallsend NSW 2287
- Lemon Grove Hotel, 112 Nelson Street, Wallsend NSW 2287
- D Bar & Grill, 5/7 Tyrrell Street, Wallsend NSW 2287
- Colliery Inn Hotel, 87 Cowper Street, Wallsend NSW 2287
- Wallsend Sporties, 5 Fogo Street, Wallsend NSW 2287

#### ***3.3 Location and name of any school***

- St Patrick's Primary School, Macquarie Street, Wallsend NSW 2287
- Plattsburg Public School, 1 Ransclaud Street, Wallsend NSW 2287
- Wallsend Public School, 26 Martindale Street, Wallsend NSW 2287
- Peter Herds School of Floral Design, 43 Whitton Street, Wallsend NSW 2287

#### ***3.4 Location and name of any hospital***

- SummitCare Wallsend, 7 Bent Street, Wallsend NSW 2287
- Andrew Nash Clinic, 73-75 Cowper Street, Wallsend NSW 2287
- Wallsend Medical Practice, Stockland Wallsend, Cnr Cowper and Kokera Streets, Wallsend NSW 2287

### 3.5 *Location and name of any place of public worship*

- St Patrick's Catholic Church, 11 Macquarie Street, Wallsend NSW 2287
- Newcastle Mosque, 6 Metcalfe Street, Wallsend NSW 2287
- Russian Orthodox Church, 3 Irving Street, Wallsend NSW 2287
- Wallsend Baptist Church, 58 Cowper Street, Wallsend NSW 2287
- New Hope Community Church, 55A Wentworth Street, Wallsend NSW 2287

### 3.6 *Location and name of any sporting or community facility*

- Wallsend Touch Football Association, Lewis Street, Wallsend NSW 2287
- Anytime Fitness Wallsend, 29 Tyrrell Street, Wallsend NSW 2287
- Lane 4 Aquatics Wallsend Swimming Centre, Frances Street, Wallsend NSW 2287
- iGym 247 Wallsend, 88 Nelson Street, Wallsend NSW 2287
- Wallsend RSL Sub Branch, 15 Tyrrell Street, Wallsend NSW 2287
- The Smith Family, 4/17 Tyrrell Street, Wallsend NSW 2287
- Wallsend District Library, 30 Bunn Street, Wallsend NSW 2287
- Wallsend Bowling Club Co-Operative, 5 Fogo Street, Wallsend NSW 2287

## **4. Venue Information**

### 4.1 *Description of facilities provided and activities conducted*

The Winners Circle is a tavern and bistro with a gaming room and TAB, Keno, Sky TV and Fox Sports facilities. The venue is a popular meeting place in the local community where patrons can participate in raffles and can participate in a punters club.

### 4.2 *Trading hours*

#### Consumption on premises

Day	Start	End
Monday	08:00AM	01:00AM
Tuesday	08:00AM	01:00AM
Wednesday	08:00AM	01:00AM
Thursday	08:00AM	01:00AM
Friday	08:00AM	02:00AM
Saturday	08:00AM	02:00AM
Sunday	10:00AM	12:00 midnight

4.3A copy of the floor plan showing the location of the gaming room is attached and marked Annexure "A".

4.4.1 Section 37B of the Gaming Machines Act 2001 imposes a restriction on the ability to apply for gaming machine threshold increases where the applying venue is part of a retail shopping centre.

4.4.2 Regulation 155 of the Gaming Machines Regulation 2010 excludes certain retail shopping centres from the statutory definition of a retail shopping centre, where:

- (a) *The retail shopping centre comprises less than 40 shops, and*
- (b) *The retail shopping centre contains or adjoins no more than one hotel or one registered club, and*
- (c) *Any such hotel...:*
  - (i) *was part of (or was adjoining) the retail shopping centre as at 18 October 2002...*

4.4.3 In the present case, the premises:

- (a) Is a part of a retail shopping centre which is comprised of less than 40 shops,
- (b) the shopping centre contains only one hotel, which is the subject premises, and
- (c) has been a part of the shopping centre since 17 December 1998.

4.4.4 Based on the grounds raised above from paragraphs 4.4.2 – 4.4.3, the applicant contends that the subject shopping centre does not satisfy the statutory definition of a “retail shopping centre”.

4.4A current patron profile was undertaken by distributing a customer profile survey, a copy of which is provided below (Fig. 3).

### WINNERS CIRCLE WALLSEND CUSTOMER PROFILE SURVEY

In order to improve the services and facilities offered to our patrons, we would like to get some feedback from you in relation to a number of areas relating to the operation of the hotel. We appreciate you taking the time to complete the survey questions below. Your responses will be anonymous.

1. What is the name of the suburb where you live?	
2. What is your gender?	
3. What is your age?	(a) 18 to 24 (b) 25 to 34 (c) 35 to 44 (d) 45 to 54 (e) 55 to 64 (f) over 65
4. What is your occupation?	
5. What is your gross yearly income (circle one only)?	(a) less than \$20,000.00 (b) \$20,000.00 to \$40,000.00 (c) \$40,000.00 to \$60,000.00 (d) \$60,000.00 to \$80,000.00

	(e) more than \$80,000.00
6. Approximately how often do you attend the hotel? (circle one only)?	(a) daily (b) more than 3 times a week (c) once a week (d) once a month (e) less than once a month
7. Rate the main activities and services that attract you to the hotel by placing a number in the each of the corresponding boxes. 1 represents an activity or service that you are most attracted to, while 7 represents the activity that you are least attracted to.	<input type="checkbox"/> Drinking <input type="checkbox"/> Dining <input type="checkbox"/> Sports broadcast <input type="checkbox"/> Gaming <input type="checkbox"/> TAB <input type="checkbox"/> Entertainment <input type="checkbox"/> Beer garden
8. How do you usually get to and depart the hotel (circle any that apply to you)?	(a) drive own vehicle (b) get a lift in private vehicle (c) taxi (d) walk (e) train (f) bus (g) bicycle
9. Do you have any comments as to how the hotel may improve its service to customers?	

Fig. 3

The patron surveys have been attached to this statement as a bundle marked Annexure "B".

#### 4.4.1 Analysis of customer survey profile data

Forty (40) patrons were surveyed:

##### Gender

- 55% were male
- 32.5% were female
- 12.5% did not state their gender

##### Age

- 5% were aged 18-24 years
- 10% were aged 25-34 years
- 15% were aged 35-44 years
- 22.5% were aged 45-54 years
- 22.5% were aged 55-64 years
- 22.5% were aged over 65 years
- 2.5% were under 18 years (was there merely to dine)

##### Suburb

- 57.5% were from Wallsend
- 5% were from New Lambton
- 10% were from Maryland
- 5% were from Warners Bay
- 2.5% were from Cameron Park
- 2.5% were from Holmesville
- 5% were from Elernmore Vale
- 2.5% were from Rankin Park
- 2.5% were from Cardiff Heights
- 2.5% were from Abernathy
- 2.5% were from Birmingham Gardens
- 2.5% were from Fletcher

#### Income

- 30% earn up to \$20,000 per year (these included unemployed pensioners)
- 17.5% earn \$20,001 - \$40,000 per year
- 22.5% earn \$40,001 - \$60,000 per year
- 12.5% earn \$60,001 - \$80,000 per year
- 5% earn \$80,001 - \$100,000 per year
- 2.5% earn more than \$100,000 per year
- 10% did not state their income and could be unemployed or retired

#### Occupation

- 7.5% were professionals
- 5% were students
- 20% were skilled labourers
- 10% were unskilled labourers
- 5% were healthcare workers
- 7.5% were clerical/administrative workers
- 25% were pensioners/retired
- 2.5% were unemployed
- 17.5% did not state their employment status and could be unemployed or retired

#### Hotel Attendance

- 25% attended daily
- 19% attended more than three times per week
- 17.5% attended once a week
- 5% attended once a month
- 5% attended less than once a month

#### Primary Purpose of Attendance

- 40% did not have selective purposes but indicated their use/enjoyment of all of the available facilities
- 20% elected dining as their sole or one of the primary purposes of their attendance

- 18% elected drinking as their sole or one of the primary purposes of their attendance
- 17.5% elected gaming as their sole or one of the primary purposes of their attendance

4.4.2 Based on the above analysis of the survey profile data it appears there is no indication of any significant gaming problems at the Hotel.

4.5 There is potential for a minor increase in patronage if the application is approved but this is not guaranteed and the objective of the approved application is to provide a greater variety of gaming machine choices for current patrons.

4.6 *Appropriate harm minimisation and responsible gambling measures that are in place at the venue*

In addition to the statutory gambling harm minimisation measures contained in Division 3 of Part 4 of the Gaming Machines Act 2001:

4.6.1 The applicant has implemented further initiatives to minimise harm and to impose responsible gambling measures and central to these is staff training in identifying signs of problem gambling with patrons, including:

- (a) Persistent or unduly frequent gambling such as gambling every day;
- (b) gambling for extended periods without a break;
- (c) avoiding contact with other persons while gambling;
- (d) minimal or no awareness of events going on around them;
- (e) displaying aggressive, antisocial or emotional behaviour while gambling;
- (f) asking to borrow money from staff or other customers; and
- (g) inability to stop gambling even after large wins.

4.6.2 The Hotel's management and staff are supportive of and encourage responsible gaming practices and all staff engaged in the operation of gaming machines have completed the prescribed Responsible Gambling Course. A responsible gambling certificate for all staff is maintained in a register at the Hotel.

4.6.3 The gaming machines are shut down from 04:00AM to 10:00AM every day.

4.6.4 Patrons are not induced to gamble, for example, through discounted liquor or free credits.

4.6.4 No gaming advertising is displayed or distributed.

4.6.6 The Hotel has in place a self-exclusion scheme that patrons are made aware of by the display of appropriate signage.

4.6.7 The Hotel currently has 20 gaming machines. All gaming machines are located within a gaming room in accordance with regulations 8 and 9 of the *Gaming Machines Regulation 2010* ("the Regulation") and in particular comply with the following:

- (a) Despite section 68(a) of the *Gaming Machines Act 2001* ("the Act"), no gaming machines are located anywhere in the premises except for in the designated gaming room.
- (b) The gaming room is sectioned off from the main bar area by a double set of sliding doors.
- (c) The 20 machines are well-spaced inside the gaming room and it is noted that historically the same gaming room housed 30 machines in the room. As such, should the application be approved, the additional 6 machines would be able to be accommodated by the same gaming room.
- (d) The main entrance is from Kokera Street and the gaming room is located towards the rear of the venue, as such, patrons are neither compelled to enter nor exit the venue in order to access the gaming room.
- (e) Other than gaming, the Hotel has a variety of facilities and entertainment available to patrons and all such facilities are easily accessible from the main bar area, as such, patrons are not compelled to pass through the gaming room in order to access the other facilities and entertainment available at the Hotel.
- (f) The venue's ATM is located outside of the gaming room and forces patrons to leave the gaming room in order to access further funds. Importantly, the ATM does not permit withdrawals from credit accounts.
- (g) Patrons are forced to exit the gaming room to access bathrooms.
- (h) The gaming room is monitored at all times by a dedicated staff member and CCTV cameras.
- (i) If staff are in doubt as to the age of patrons in the gaming room they conduct identification checks on the spot.

4.6.8 The hotel has in place specific and extensive measures to minimise the occurrence of problem gambling at the hotel. The measures enumerated above show that the applicant respects the positive relationship it has developed with the local community and takes seriously its commitment to ensuring its patrons gamble responsibly.

## **5. Social and Economic Impacts of the Threshold Increase**

- 5.1 Pursuant to section 36(3)(d)(i) of the *Gaming Machines Act 2001* provides, as a precondition to the Authority approving the application, that the proposed increase in the gaming machine threshold have an overall positive impact on the local community where the venue is situated.
- 5.2 To satisfy the requirement of the application having an overall positive impact on the local community the applicant intends to make a donation of \$100,000.00 to Wesley Mission Gambling Counselling Services ("Wesley Mission"). The donation to Wesley Mission will make an overall positive impact on the local community.
- 5.3 The proposed increase is a low-range increase, as such, any potential socio-economic impact caused by the increase in the gaming machine threshold will be minimal and, therefore, negated by the applicant's donation to Wesley Mission. Furthermore, the applicant proposes that the size of the donation will be such that its overall positive impact will also extend to reducing pre-existing gaming-related, socio-economic issues in the local community.

### ***5.4 Gaming machine data***

- 5.4.1 The gaming machine statistical data was requested from the Independent Liquor and Gaming Authority via the Gaming Machine Data Request Form and the results thereof are attached and marked Annexure "C".
- 5.4.2 The combined statistical data for the number of gaming machines for Lake Macquarie LGA and Newcastle LGA from 2012 to 2016 reveals that the highest numbers of gaming machines per adult were yielded between 2012 and 2014:

<b><u>YEAR</u></b>	<b><u>NUMBER OF GAMING MACHINES</u></b>
2012	0.0220741027
2013	0.0217296679
2014	0.0211997684

In comparison, the number of gaming machines per adult declined in 2015 and 2016, yielding the following statistics:

<b><u>YEAR</u></b>	<b><u>NUMBER OF GAMING MACHINES</u></b>
2015	0.0208250537
2016	0.0209650985

This application is for a low-range gaming threshold increase of six (6) machines. If granted, the low-range increase will have no substantial impact on the data from

2016 such that it would cause a noticeable increase in the overall number of gaming machines per adult in 2017. In practicality, the minor increase is not likely to make any substantial contribution to any pre-existing gambling issues in the community.

5.4.3 The quarterly gaming machine expenditure from February-March 2012 until November-December 2016 reveals that the lowest expenditure of \$57,272,983.96 was yielded in the February-March 2013 quarter, while the highest expenditure of \$64,413.185.89 was yielded in the August-September 2016 quarter.

Comparing these expenditure figures against the data referred to in 5.4.2 above where, for example, the total number of gaming machines for the entire 2016 year was shown to be one of the lowest out of the five years, one can conclude that the number of gaming machines available does not correlate with the amount of gaming machine expenditure.

The lack of any significant correlation between the number of gaming machines available per adult and the amount of gaming machine expenditure is further illustrated by the expenditure data for the February-March and May-June 2012 quarters. Each of those quarters yielded two of the lower amounts of expenditure yielded in all of the quarters analysed between 2012 and 2016, conversely, the data for the number of gaming machines available per adult reveals that 2012 had one of the higher numbers of gaming machines available per adult. The lacking correlation between the number of gaming machines available per adult and the amount of gaming expenditure per year is further emphasised in the charts below (see Fig. 4 and Fig. 5 below), the data for which was taken directly from the data provided by ILGA.

Fig. 4

Fig. 5

The lack of correlation between the number of gaming machines available and any rise in gaming machine expenditure demonstrates that the proposed low-level increase of the Venue's gaming machine threshold does not automatically mean that any pre-existing gambling issues in the community will be inflated simply due to a slightly greater number of gaming machines becoming available at the Venue. Rather than gaming machine expenditure being caused by a solitary factor (i.e. the number of gaming machines available) the data suggests that the phenomenon of any increase in gaming machine expenditure is due to a matrix of factors. These factors are not explored in the data.

The expenditure data shows the levels of profits yielded by clubs and hotels. This data highlights the ability for clubs and hotels to offset any detrimental impact that their operation of gaming machines may potentially have on the community by making appropriate financial contributions to the local community to help it continue to develop and address community issues, including gambling issues.

### 5.5 Social profile information

- 5.5.1 The social profile information, including SEIFA Indices for the Newcastle and Lake Macquarie local government areas are attached and collectively marked Annexure "D".
- 5.4.2 We preface the analysis of the social data for the Newcastle and Lake Macquarie LGA's by the fact that the data available on the Australian Bureau of Statistics website is largely sourced solely from the 2011 census.
- 5.4.3 The region data summary for the Newcastle LGA reveals the following:

#### Employment

- (a) Professionals: 25.7%
- (b) Clerical and administrative workers: 14.1%

- (c) Technicians and trades workers: 13.7%
- (d) Community and personal service workers: 10.5%
- (e) Managers: 9.9%
- (f) Sales workers: 9.8%
- (g) Labourers: 9%
- (h) Machinery operators and drivers is 5.8%
- (i) Workers not adequately described/not stated: 1.4%

#### Labour force

The total labour force in Newcastle from the 2011 census is 74,540, whilst the rate of unemployment was 5.8%.

#### Estimated resident population based on age as at 2014

The total population was 160,021.

- (a) 0-14 years: 16.8%
- (b) 15-24 years: 14.9%
- (c) 25-34 years: 15.9%
- (d) 35-44 years: 12.9%
- (e) 45-54 years: 12.6%
- (f) 55-64 years: 11.3%
- (g) 65-74 years: 8%
- (h) 75-84 years: 5%
- (i) 85 years and over: 2.6%

The data shows that other than the age bracket 0-14 years, the majority of Newcastle residents are aged between 25-64 years – a period during which most people are working full-time. The age brackets with the least numbers of persons are 65-74 years, 75-84 years and 85 years and over. Though it is less likely that persons aged between 65 and 85 years and over would still be working full-time or at all, this does not necessarily mean that they are vulnerable to experiencing financial difficulties as they may be able to rely on a composite of different sources of income: savings, superannuation, pension, and/or any investment income, and this is evidenced in the data referred to below in relation to personal income and government pensions.

#### Youth (15-19 years) engagement in work/study

The 2011 census data shows that a fairly high percentage of students between the ages of 15 and 19 years are also engaged in the work force whilst studying. About 30% of youth in Newcastle are working part-time and simultaneously studying full-time or working full-time and studying part-time or working part-time and studying part-time.

Based on the employment and labour force data, the majority of employed people in Newcastle are likely to be earning a reasonable level of income on a regular basis and would likely not be financially vulnerable. The fairly high percentage of youth commencing work at an age between 15 and 19 years means that Newcastle residents will be more likely to have savings at an earlier

age, which will help to solidify their financial position once they complete their schooling and commence full-time employment.

Estimates of personal income as at 2013

- (a) The median employee income was \$50,251.00.
- (b) There were 70,214 employee income earners.
- (c) The median own unincorporated business income was \$10,627.00.
- (d) The total own unincorporated business income was \$292 million.
- (e) There were 292 own unincorporated business income earners.
- (f) The median investment income was \$335.00.
- (g) The total investment income earned in 2013 was \$437 million.
- (h) There were 58,997 investment income earners.
- (i) The median superannuation and annuity income was \$15,961.00
- (j) The total superannuation and annuity income was \$59 million.
- (k) There were 2,495 superannuation and annuity income earners.

As at 2014, the number of persons on the Age Pension was 17,917. The data for the median income under the pension and the total income was not provided.

Bankrupts

The total number of bankrupts in Newcastle (including those with a non-business related bankruptcy and those with a business-related bankruptcy) was 146 in 2012, 105 in 2013 and 130 in 2014. Whilst the 2014 data shows a higher number of bankrupts than that in 2013, the 2012 data shows that the number of bankrupts was higher than in 2014. The data suggests a possibility that other than some random, minor increases, there could be an overall downtrend in the number of bankrupts between 2012 and 2016.

Aboriginal and Torres Strait Islander peoples

The percentage of Aboriginal and Torres Strait Islanders out of Newcastle's total population was 2.6% in the 2011 census. The proportion of Aboriginal and Torres Strait Islanders means that there are minimal persons in the Newcastle LGA particularly vulnerable to experiencing financial difficulties due to any gambling issues.

5.4.4 The region data summary for the Lake Macquarie LGA reveals the following:

Employment

- (a) Professionals: 19.1%
- (b) Technicians and trades workers: 16.7%
- (c) Clerical and administrative workers: 15.2%
- (d) Sales workers: 10.6%
- (e) Community and personal service workers: 10%
- (f) Labourers: 9.9%
- (g) Managers: 9.7%
- (h) Machinery operators and drivers is 7.4%
- (i) Workers not adequately described/not stated: 1.5%

Labour force

The total labour force in Lake Macquarie from the 2011 census is 88,251, whilst the rate of unemployment was 5.3%. The proportion of residents vulnerable to experiencing financial hardship is minimal.

Estimated resident population based on age as at 2014

- (a) 0-14 years: 18.1%
- (b) 15-24 years: 12.7%
- (c) 25-34 years: 11.2%
- (d) 35-44 years: 12.5%
- (e) 45-54 years: 13.2%
- (f) 55-64 years: 13%
- (g) 65-74 years: 10.3%
- (h) 75-84 years: 6.2%
- (i) 85 years and over: 2.7%

Compared to Newcastle, Lake Macquarie's population is composed of a slightly higher population of persons aged between 45-85 years and over. However, as with the Newcastle population, the lowest demographics are still the persons who fall within the 65-74, 75-84 and 85 years and over age brackets.

Estimates of personal income as at 2013

- (a) The median employee income was \$49,068.00.
- (b) The total number of employee income earners is 85,284.
- (c) The median own unincorporated business income was \$11,858.00.
- (d) The total own unincorporated business income was \$268 million.
- (e) The number of own unincorporated business income earners was 10,958.
- (f) The median investment income was \$357.00.
- (g) The total investment income was \$466 million.
- (h) The number of investment income earners was 73,595.
- (i) The median superannuation and annuity income was \$15,000.00.
- (j) The total superannuation and annuity income was \$92 million.
- (k) There were 3,731 superannuation and annuity income earners.

As at 2014, there were 29,259 people receiving the government Age Pension.

The data for the estimates of personal income and government pensions reinforces the diverse sources of income of Lake Macquarie's population.

Youth (15-19 years) engagement in work/study

The 2011 census data shows that about 28.6% of youth aged between 15 and 19 years are engaged in work and study simultaneously.

Based on the employment and labour force data, the majority of employed people in Lake Macquarie are likely to be earning a reasonable level of income on a regular basis and would likely not be financially vulnerable. The fairly high percentage of youth commencing work at an age between 15 and 19 years means that Newcastle residents will be more likely to have savings at an earlier

age, which will help to solidify their financial position once they complete their schooling and commence full-time employment.

#### Estimates of personal income

In Newcastle the median employee income in 2013 was \$50,251 per annum. There were 58,997 investment income earners and the total investment income earned in 2013 was \$437 million.

#### Bankrupts

The total number of bankrupts in Lake Macquarie (including those with a non-business related bankruptcy and those with a business-related bankruptcy) was 171 in 2012, 161 in 2013 and 168 in 2014. As with the Newcastle bankrupts data, whilst the 2014 data shows an increase in bankrupts from 2013, the 2012 data shows that the number of bankrupts was higher than in 2014. The data suggests a possibility that other than some random, minor increases, there could be an overall downtrend in the number of bankrupts between 2012 and 2016.

#### Aboriginal and Torres Strait Islander peoples

The total population of the Lake Macquarie LGA includes a proportion of 3% of Aboriginal and Torres Strait Islander peoples. The proportion of Aboriginal and Torres Strait Islanders means that there are minimal persons in the Lake Macquarie LGA vulnerable to experiencing financial difficulties due to any gambling issues.

5.4.5 The SEIFA indices were obtained from the Australian Bureau of Statistics website and, significantly, were based on 2011 data. The historical nature of the 2011 data should be taken into account, particularly when comparing this data to that data referred to above in relation to employment and income. The SEIFA 2011 is based on the same notions of relative socio-economic advantage and disadvantage as those used for the SEIFA 2006, namely, "the question of people's access to material and social resources and their ability to participate in society" (Australian Bureau of Statistics, 2033.0.55.001).

- (a) Lake Macquarie's LGA code is 14650 and it scored in the 7<sup>th</sup> decile in each index measured for:
- (i) relative socio-economic advantage and disadvantage, which identifies and ranks areas in terms of their relative socio-economic disadvantage;
  - (ii) relative socio-economic disadvantage, which broadly measures both advantage and disadvantage; and
  - (iii) economic resources, which measures particular aspects of socio-economic advantage and disadvantage.

In the index for education and occupation, Lake Macquarie scored in the 6<sup>th</sup> decile.

The highest decile able to be scored in each index is 10, as such, Lake Macquarie's scores in the 7<sup>th</sup> and 6<sup>th</sup> deciles respectively is a positive

illustration of the lower levels of socio-economic advantage and disadvantage.

- (b) Newcastle's LGA code is 15900 and it scored in the 7<sup>th</sup> decile in the indices for:
- (i) relative socio-economic advantage and disadvantage, and
  - (ii) relative socio-economic disadvantage.

In the index for economic resources Newcastle scored in the 4<sup>th</sup> decile, while in index for education and occupation Newcastle scored in the 9<sup>th</sup> decile.

The SEIFA data for Newcastle is at odds with the employment and income data derived from the 2013 and 2014 financial years referred to above at 5.4.3. The employment and income data for Newcastle shows that it slightly leads Lake Macquarie in terms of the number of working professionals, who tend to earn a reasonable level of regular income, as well as the proportion of youth who are working and studying simultaneously. Furthermore, the income data for Newcastle is also slightly higher than that of Lake Macquarie.

- 5.4.6 In conclusion it appears that there are minimal persons at risk of being susceptible to gambling problems.

## **6. Report on Consultation Process**

Following the receipt of confirmation of the existence of two responsible gambling funds from ILGA's data analysis unit, consultation notices were distributed on 14 October 2016 to the following:

- (a) Newcastle City Council;
- (b) The Newcastle City Local Area Command;
- (c) The Council of Social Service of New South Wales;
- (d) Hunter New England Health;
- (e) Mission Australia Gambling Counselling; and
- (f) Wesley Gambling Counselling,

in accordance with regulation 37 of the *Gaming Machines Regulation 2010*.

On 29 October 2016, Newcastle Police requested a full copy of the application and in accordance with regulation 41 of the Gaming Machine Regulation 2010 a copy of the application will be provided within 2 days after lodgment. On 14 November 2016 Newcastle City Council indicated their intention to make a submission in relation to the application.

No objections have been raised nor any meetings or discussions requested by any of the notified parties. Other members of the local community did not contact us with queries or objections.

In further compliance with regulation 41 of the Gaming Machines Regulation, within 2 days of the application being lodged, the following organisations will be notified:

- the Council of Social Service of New South Wales,
- Hunter New England Health,
- Mission Australia Gambling Counselling and
- Wesley Gambling Counselling of the lodgement of the application.

All parties will be notified that they have 30 days in which to make submissions in relation to the application. Furthermore, the applicant will publish an advertisement in the Newcastle Herald and display a conspicuous notice notifying the public about the lodgment of the application, both of which will also warn the public of the 30-day consultation period.

<p>8. How do you usually get to and depart the hotel (circle any that apply to you)?</p>	<p>(a) drive own vehicle <i>Sometimes</i>          (b) get a lift in private vehicle          (c) taxi          (d) walk          (e) train          (f) bus          (g) bicycle</p>														
<p>9. Do you have any comments as to how the hotel may improve its service to customers?</p>	<p><i>Keno machine + TAB machine are too close together creating congestion. Behind the bar conversation should cease while customer is waiting to be served. Serving customers in order they get to the bar can be improved.</i></p>														

P. S. On the positive side: Top Marks for:

- Table service for the elderly.
- Food nibbles
- Gaming drinks.
- Bar staff when they haven't got the shirts.
- Open-mindedness to most "misbehaviour".

The National Regional Profile (NRP) presents, for all Australia, a range of data for various types of small regions. Data are available for Local Government Areas, Statistical Areas Levels 2 and other larger geographies. The NRP is intended for users interested in the characteristics of regions and in comparing regions across Australia. Data are in time series, where available.

Data last updated: **30/06/2016 11:30:00**

The National Regional Profile (NRP) presents, for all Australia, a range of data for various types of small regions. Data are available for Local Government Areas, Statistical Areas Levels 2 and other larger geographies. The NRP is intended for users interested in the characteristics of regions and in comparing regions across Australia. Data are in time series, where available.

Data last updated: **23/09/2016, 11:30:00**

Estimated Resident Population - Median Age - Usual Residents, Males, ERP at 30 June (years)	39.6	40.1	40.2	40.3	40.5
Estimated Resident Population - Median Age - Usual Residents, Females, ERP at 30 June (years)	41.9	42.3	42.4	42.5	42.8
Estimated Resident Population - Median Age - Usual Residents, Persons, ERP at 30 June (years)	40.7	41.1	41.3	41.5	41.7

**Population Density**

Population Density - Population density (ERP at 30 June) (persons/km2)	301.3	303.7	306.5	309.8	312.8
--	-------	-------	-------	-------	-------

**Families by Type - 2011 Census**

Families by Type - Couple families with children under 15 and/or dependent students (no.)	--	17 475	--	--	--
Families by Type - Couple families with non-dependent children only (no.)	--	4 783	--	--	--
Families by Type - Couple families without children (no.)	--	21 126	--	--	--
Families by Type - One parent families with children under 15 and/or dependent students (no.)	--	6 037	--	--	--
Families by Type - One parent families with non-dependent children only (no.)	--	3 166	--	--	--
Families by Type - Other families (no.)	--	675	--	--	--
Families by Type - Total families (no.)	--	53 262	--	--	--
Families by Type - Average family size (no. of persons)	--	3	--	--	--

**Households by Type - 2011 Census**

Households by Type - Lone person households (no.)	--	16 829	--	--	--
Households by Type - Group households (no.)	--	1 653	--	--	--
Households by Type - Family households (no.)	--	52 076	--	--	--
Households by Type - Total households (no.)	--	70 558	--	--	--
Households by Type - Average household size (no. of persons)	--	2.5	--	--	--

**Access to Internet at Home - 2011 Census**

Access to Internet at Home - With broadband connection (%)	--	67	--	--	--
Access to Internet at Home - With dial-up connection (%)	--	3	--	--	--
Access to Internet at Home - Other connection (%)	--	3	--	--	--
Access to Internet at Home - Proportion of all occupied private dwellings (%)	--	72	--	--	--

**Speaks a Language Other Than English at Home - 2011 Census**

Speaks a Language Other Than English at Home - Percentage of total population (%)	--	3.8	--	--	--
---	----	-----	----	----	----

**Internal Migration - As at 30 June**

Internal Migration - Arrivals (no.)	11 204	11 157	11 317	11 116	11 195
Internal Migration - Departures (no.)	10 520	10 357	10 493	9 875	10 359
Internal Migration - Net Regional Migration (no.)	684	800	824	1 241	836

**Children Enrolled in a Preschool Program - As at 1 July**

No Data Available

**Children Attending a Preschool Program - As at 1 July**

No Data Available

**Persons with Post School Qualifications - 2011 Census**

Persons with Post School Qualifications - Percentage of total population aged 15 years and over (%)	--	54.8	--	--	--
Persons with Post School Qualifications - With Postgraduate Degree (%)	--	2.1	--	--	--
Persons with Post School Qualifications - With Graduate Diploma/Graduate Certificate (%)	--	1.2	--	--	--
Persons with Post School Qualifications - With Bachelor Degree (%)	--	9.7	--	--	--
Persons with Post School Qualifications - With Advanced Diploma/Diploma (%)	--	7.8	--	--	--
Persons with Post School Qualifications - With Certificate (%)	--	23.8	--	--	--
Persons with Post School Qualifications - Inadequately described/Not stated (%)	--	10.1	--	--	--

**Unpaid Work: Percentage of Total Population Aged 15 Years and Over - 2011 Census**

Unpaid Work: Percentage of Total Population Aged 15 Years and Over - Persons undertaking voluntary work for an organisation or group (%)	--	16	--	--	--
Unpaid Work: Percentage of Total Population Aged 15 Years and Over - Persons caring for own children without pay (%)	--	19.6	--	--	--
Unpaid Work: Percentage of Total Population Aged 15 Years and Over - Persons caring for other children without pay (%)	--	9.8	--	--	--
Unpaid Work: Percentage of Total Population Aged 15 Years and Over - Persons caring for own children and other children without pay (%)	--	1	--	--	--
Unpaid Work: Percentage of Total Population Aged 15 Years and Over - Persons providing unpaid care, help or assistance to family, others (%)	--	13.3	--	--	--

**Method of Travel to Work - 2011 Census**

Method of Travel to Work - Used one method - Train or tram (no.)	--	538	--	--	--
Method of Travel to Work - Used one method - Bus (no.)	--	917	--	--	--
Method of Travel to Work - Used one method - Car (as driver or passenger) (no.)	--	63 229	--	--	--
Method of Travel to Work - Used one method - Motor bike/scooter (no.)	--	526	--	--	--
Method of Travel to Work - Used one method - Bicycle (no.)	--	374	--	--	--
Method of Travel to Work - Used one method - Other (inc. taxis) (no.)	--	1 423	--	--	--
Method of Travel to Work - Used one method - Walked only (no.)	--	1 349	--	--	--
Method of Travel to Work - Used one method - Total - used one method (no.)	--	68 356	--	--	--
Method of Travel to Work - Total - used more than one method (no.)	--	1 110	--	--	--
Method of Travel to Work - Other - Worked from home (no.)	--	2 789	--	--	--
Method of Travel to Work - Other - Employed but did not go to work (no.)	--	10 097	--	--	--
Method of Travel to Work - Other - Method of travel not stated (no.)	--	1 240	--	--	--
Method of Travel to Work - Total employed (no.)	--	83 592	--	--	--

Economy	includes Personal Income, Businesses, Building Approvals
Industry	includes Registered Motor Vehicles, Tourist Accommodation, Employed by Industry
Energy & Environment	includes Water Use, Energy Supply and Generation, Land Area
