To whom it may concern.

I'm a current board member of FARE (Foundation for Alcohol Research and Education). I realise that there has been a lot of press about how these laws are dampening entertainment.

At FARE we are presented with the facts and extensive research. The facts show that there are less casualties and less harm done. Speak to any casualty ward staff at St. Vincents and they'll validate these facts.

We need an environment where our kids and friends can be safe when they go out.

I feel the current government has done a lot to realise this. We are encouraged by the positive result these laws have had. It would be a shame to reverse the good progress made.

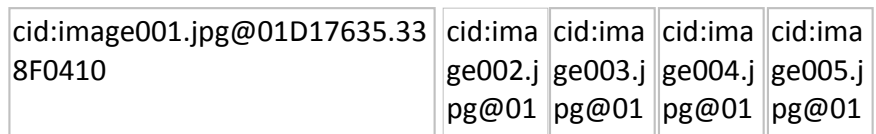

I'm in favour of the current lockout laws.

Kind Regards
