Why we need to keep the alcohol laws in place? We would you remove something that works against an on-going problem. I have direct experience with a NSW town Muswellbrook, where, when I went there, the scene on Friday and Saturday nights, till early morning hours was of drunks walking around the CBD with alcohol in hand, smashing everything in sight and engaging in fights and domestic violence with their wives/girlfriends. The Council in its wisdom imposed alcohol free zones, and the transformation for the better was remarkable.
