For me not to have to attend anymore funerals that have been caused by alcohol.

We are loosing too many people due to alcohol related events.

Lock out laws need to be in place. No if's or why for's.

Judges need to catch up with the times. They and they only have the power to put these people in jail, or better still make them visit an intensive care ward at any hospital to see the damage alcohol has caused or one punch can cause. Let them meet the families, not as a gang, but one on one. Please don't relax the laws.

Regards,

ANN ANDERSON
