To whom it may concern

As a citizen and resident of [REDACTED] I am appalled at the damage these lockout laws have done. I work in theatre and finish most evenings after 11pm. Now, not only can't I buy a bottle of wine to take home with me, but I need to decide where I want to be before 1.30. It would be like telling "normal" 9 to 5ers that they need to get to where they're going by 7.30 at night. I see the late night trading decimated for friends' businesses in the area, and even the bars and restaurants I attend.

I choose to live in the area I do as it is a 24 hour place. If I wanted everything closed early, I would move.

Telling the community that because of two idiots, that literally hundreds of thousands of people can't be trusted means that the government has chosen a slap dash knee jerk reaction to two incidents.

Please make Sydney the vibrant place it once was. I'm not a fan of casinos.

Thank you  
Trevor Ashley
