Dear sir,

I am a music industry professional and partook in the Keep Sydney Open rally.

It is with great respect I request a fair and honest review of these laws. Mike Baird deserves all the criticism fired his way, we've seen a whole night time economy put in jeopardy due to the knee jerk laws coming into play.

While I highly doubt we'll see the abolishment of the law immediately, I kindly ask that you take on Clover Moore's advice and find ways to exempt music venues from the lockout.

Thanks,
