I am a huge fan of Gordian Fulde- someone at the coal face. His facts speak for themselves. Also I have two daughters and a son in law in the police force. In Wollongong they hate the streets on Friday and Saturday nights. There is very little respect for the officers. I can see a hardness and lack of compassion in our three which my wife and I do not like. We believe it is the stress of the job and poor support from the police family. Plus we used to have local stations rather than super stations- the local sergeant knew all and kept us young blokes on our toes.

Regards,

Ian Birch
