Dear sir/madam

Please have some common sense and see that these laws are killing our city. I'm embarrassed to tell my friends and family when they visit that we can't buy alcohol after 10pm from a shop and can't drink anywhere in a city establishment after 3am. But we can go to the casino 24/7 and gamble. How many lives have been destroyed by gambling? Yet for some reason the star gets an exemption from these laws.

Everyone has seen the data regarding the lock outs and how they are not working just shifting the problem elsewhere. Please do what you were elected to do and make informed decisions for everyone. Please restore my faith in the NSW government.

Kind regards

James
