Obviously they are working in Kings Cross, however they need to be more widespread. 100% not wound back. The increased alcohol intake, the assaults e.t.c are just shifting to places where the lock out laws are not in force. Even "public identity" John Ibrahim was quoted saying recently that strip clubs and the like will soon be in double bay. It always happens; crackdown or extra enforcement in one area, causes a flow on effect. The laws need to be state wide.

Regards,

David Broome
