To: Liquor Law Review <liquorlawreview@justice.nsw.gov.au>;

I am a nurse and parent of two young men. My younger son was the victim of a one punch assault and was very lucky to have recovered from the brain injury he sustained. The incident was alcohol fuelled. My older son has also been assaulted in an alcohol fuelled incident and had his nose broken. Both incidents occurred in public places. The culture of drinking to the point of losing control needs to be changed. Reduced tolerance of heavily intoxicated people in public places must surely help to reduce the carnage. Keep the laws in place!

Regards,

wendy chapman
