I currently work as a dancer in an inner city bar and the lockout laws are affecting my income substantially and making my bills especially University unaffordable (I have to pay upfront no HECS because Im a NZ citizen). I've deferred my last semester because of this.

Please get rid of lockout ASAP!

The other girls I work with are starting to struggle as well. A few have been forced to move house because of the loss of income.

The club use to be busy until at least 4am but last night it closed at 2am and was empty most of the night.

I talk to a lot of people including tourists and many of them think its a joke when I explain the 1.30am rule. Its embarrassing for Sydney and horrible for tourism.

Sent from my Samsung Galaxy smartphone.
