to whom it may concern

as business owners of a small crown st surry hills hair salon we have noticed a steady drop off in our business since the lock out laws were first introduced - we also live on crown st and have notice a massive decrease in the number of revellers who used to finish up at the many local pubs and make their way up to oxford st - we would have upwards of 100 a month of our flyers/price list taken from the front of our salon - inevitably we would get at least 4 new clients a week from this - now we are lucky if we have 10 flyers a month taken at night....your sledge hammer approach to licencing has create the perception that this part of town is CLOSED at night - we know the reality is different however perceptions are everything.

sincerely

matthew and Cheryl clarke
