Hi

I am a Kings Cross resident since September 2009. It is convenient to visit family friends and sporting activities

The only truth about the February 2014 legislation is there are less drunkards on the streets all hours of the day and night

Less drunks on the streets mean less noise and less anti-social behaviour but the problem is still there The problem has moved from night club patrons to backpackers

I believe the legislation should stay for Kings Cross residents it is a safer environment

If the 2014 legislation applies to all venues in Kings Cross then why is Vegas open 24 hours and the Bourbon closing time is 5am?

Or, does that mean we will serve your last drink at 3am but you can stay for as long as you like.maybe Vegas found a loop hole they will close at 5am and open at 6am

Regards
Marise Collier
