In reference to the lockout February 2014

I had been a Manager of a nightclub in Kings Cross since 2003.

Since the lockout was introduced the business had a 65% loss of income.

The job I loved so dearly travelling from Newcastle to Sydney every weekend has been taken away from me.

I sunk into a deep depression and rarely left my home for over 1 year.

Even though this business is still trading my position is no longer and the owners have employed family to do my job.

This has destroyed my life and continues to.

Please review the lockout in the hope things pickup and my position will be offered back to me.

I'm struggling badly mentally and financially.

Warmest Regards

Carol Cornish
