To: Liquor Law Review <liquorlawreview@justice.nsw.gov.au>;

I well realise the economic disruption lock out laws can have. However disruption is an ongoing situation for business and the community.

The overwhelming evidence that lock laws reduce violence more than justify the impact on a limited number of businesses.

In fact if done in an innovative way a whole new vibrant safe economy can gradually replace the violent drunken past - look carefully at the way inner city Newcastle is transitioning.

Please support the laws

Regards,

Peter Coughlan
