Hi

I just wanted to express my
Views on the current law, in reference to the lockout laws I honestly believe
That there is a current issue with violence and alcohol in Australia I believe this is a cultural issue Which
need to be assessed through eg schooling.

But I don't believe that lockout laws are the answer I have worked in the hospitality industry, I have
experience the effects of lockout laws affecting venues which strive to legally and responsibly serve alcohol,
these businesses are being affected by this law I think the reform should be surround by stricter licensing in
legalities of service of alcohol eg altering the drinking age.

Regards
