Dear Sir,

I'm writing this letter to you as i oppose these Lock out laws which have had a detrimental effect on our once great city.

I am 48 and have been a resident of [REDACTED] for the past 8 years as i have always been attracted to the city night time vibe and lights..

Well these lights are now out. 😞

Whilst the deaths of 2 young men at the Cross was tragic to say the least, the knee jerk reaction of the Government to pretty much shut the place down has done far more damage to our night time economy.

The media highjacked these deaths and the Cross has been sold to the highest bidder.

Businesses have closed and are closing by the dozen. Everywhere you turn there is a for lease or for sale sign.

Statistics show that assaults in the Cross and surrounding areas was already on the decline and had been for a number of years prior to 2014.

Im also appalled the Casinos are exempt from the Lockouts. We all know gambling is a massive problem in our society and for the government to pretty much herd the population into the casino is disgusting, as well as this a number of places (16 i think) have been exempt from the lock out laws because they have poker machines, so you can go and gamble your life away..

Please reconsider these laws, surely we can come up with a better solution and give life back to our city.

Thanks,

David Dufty
