To: Liquor Law Review <liquorlawreview@justice.nsw.gov.au>;

I cannot believe that any sane government would agree to return to the constant news of another brawl, death etc due to the unfettered greed of the liquor industry. Rather than winding back the new laws in Kings Cross, they should be extended across all of NSW. If these laws are reduced from current levels, I will look closely at this area in determining where my vote goes at the next election.
