To: Liquor Law Review <liquorlawreview@justice.nsw.gov.au>;

My name is Stefan Flegman. I am [REDACTED] years of age and strongly object to the destruction of what was once an exciting night time entertainment scene. I am a [REDACTED] and have been fortunate enough to visit night time venues in many great cities around the world i.e. NY London Paris Amsterdam Chicago. The nanny state government that exists at present in NSW has effectively made us a laughing stock around the world. They are even laughing at us in Melbourne because supposedly we as adults can't be trusted not to coward punch someone after a certain time at night. As an international city we need a vibrant night entertainment scene to foster word of mouth recommendations amongst tourists and young visitors and I don't mean the hideous casino at Darling Harbour. Without this aspect of tourism and hospitality Sydney will wither and die on the vine as word gets out that the government has done its best to kill off what was once a vibrant night time city. Please see some common sense with all this and start treating us with some respect instead of as irresponsible idiots who also cant have glass , spirits after a certain hour, and more than four drinks from the bar at any one time.

Regards

Stefan Flegman
