Working as a registered nurse in a correctional centre I have seen numerous people whose lives have changed forever as a result of alcohol related crime. I am acutely aware that on the other side of the walls is another family also completely changed as a result of being the victims of the perpetrator. Car accidents, volatile outbursts, one punch episodes to name a few. Raise legal drinking age to 21. Too dangerous for 18 year olds to start drinking & driving at around the same age.
