End the lockout laws please.

Why is Sydney the only large city in the world trying to make everyone conform and allow the people to enjoy themselves.

I have been on every rally so far and we are gaining more momentum which should be telling you that this is not the way to go about it.

We all feel deeply saddened about the deaths that have happened at the Cross but also feel sad for losing a huge part of Sydney's culture and some iconic venues.

Please overturn the laws like Melbourne did and give us our city back.

Kind regards,

Matt Garty
