I'm writing in regards to the states lockout laws. As someone who has directly been affected by these laws (i have lost my job and only form of income). I highly disagree with these sanctions that are clearly there to benefit big business and real estate for the government and the wealthy.

These laws have resulted in myself having no confidence what so ever with this government as they do not benefit the people. You have lost my vote and my families vote.

I hope you can rectify these outrageous laws, Melbourne is looking like a very attractive option, they seem to actually care about their people and are not the real estate equivalent of a narcos state.

Sincerely,

An ashamed sydney sider
