Dear Sydney

I think we both know these lock out laws are ridiculous and make you the laughing stock of the world.

Lets scrap them and start again. They are not helping anyone.

It was a knee-jerk reaction and it has solved nothing but it has caused a whole lotta new problems for small businesses, taxi's, live music, and made Kings Cross a ghost town. There are 100 other things I could tell you about why this is/was a poor decision but it has been well documented in most media.

Lets make Sydney great again.
Dump the lock-out.

Thanks
