To: Liquor Law Review <liquorlawreview@justice.nsw.gov.au>;

I am a retiree on a part pension. I ave worked in a job dealing with Alcohol and substance abusers in Domestic Violence and street violence. I know you cannot reason with drunks and a high percentage would become violent towards others. I have seen Doctors,Nurses and Ambulance personnel subject to offensive and violent behaviour whilst trying to assist these parasites.

We seem to have a drinking and drug taking culture in this state that is becoming the norm and an attitude of no responsibility towards others and the community. This has to Stop.  
Restricting access to early morning drinkers already affected seems sensible and goes some way to reducing violence that may lead to assault and more serious attacks.

Regards,

Dennis Gearside
