Against the lockout/licensing laws

Dear Justice,

I am totally against the current licensing and lockout laws implemented by the Government in NSW.

It is an uphill battle arguing against these laws, because such far-reaching, draconian laws will doubtless take credit for the already declining violence patterns in city venues.

Banning people people from drinking after-hours will have an undeniable effect, but it is analogous to the effect of banning people from crossing the road altogether, and then claiming a drastically reduced road toll.
