I live in  and know there is a huge problem with alcohol and drugs in this area. As a grandmother of young adult grandchildren I worry for their safety if they are out and about at night. There have been many instances of young people being hit late at night, some I have known personally since I have lived here (moved to the area in 1972) and some have died because alcohol has been the contributing factor.

I urge you to keep the current laws in place.

I would like to see a closing time of 10pm for all alcohol serving establishments because I believe this would deter alcohol fueled attacks, it makes sense if people have access to alcohol for extended periods it going to cause trouble.

Regards,

Rhonda Green
