Hey Guys,

I'm sure you've received all kinds of emails from people, who have been severely affected but the decisions made to bring these in laws in place a few years back.

As someone who relied on the live music scene to cultivate a living, I too am another one of those people affected. It's depressing mentally to see so many venues I called home, go from vibrant safe fun loving places where people use to dance, now to be forcibly shut down due to these reckless decisions, to enforce laws that were tried and tested in other states to have not worked!

You have an amazing opportunity here to shake the stigma of being tied to big business (c'mon, we all know how this works and who "probably paid" who) and show that you give a crap about some of the people who help cultivate a positive culture through art & music.

Sport is such a strong culture in this country, it'd be great to back it up with a thriving nightlife again.

Please review these carefully, with an unbiased mind and re-open sydney.

Be a better NSW, for all!

Kyro
