To who it may concern

As general Manager of a small Budget Hotel on Victoria street all I can say is thank you there are less drunk teenagers and young adults in the area! On Victoria its obvious since Lockout a lot less mess to clear in our lobby and out the front .

We have seen a growth of first time visitors staying here and generally even our regular guests have commented how much difference it is going out for dinner of an evening that they they realised how nice an area it is.

I used to worry about my own safety as there were so many really drunk and drugged people from late afternoon and to the early hours of the morning .I am local and didn't feel safe can imagine how our guests feel.

Thank you Justice NSW please keep the Lock out laws in place They are Working stop now and all will be undone . People are still having a great time and having a drink .

Adrian Feuer
