Hello,

Thank you for taking the time to read this. As a local resident and worker in the areas of 
 I have witnessed the closure of many businesses in the area not just nightclubs that I work in as a Dj but hairdressers, cafes and restaurants, newsagents, pharmacies and many more. The foot traffic has been greatly reduced at all times of day. Many young people I know are no longer considering Sydney as a viable option due to lack of employment from the night economy and the downturn in culture. The tragic deaths of Daniel Christie and Thomas Kelley are terrible but I can't help but feel like the multitudes are being punished for the sins of the few and I wholeheartedly support finding solutions to this violence but taking away our night economy is not the answer.

Thank you

Barnabas Hodgson
