My name is Jonathan hooper

Age: 21

I'm writing this to allow my voice to be heard. As of late it has become evident to me that my demographic has been blatantly ignored when it has come to the matter of the lock out laws.

I do agree with the doctors and nurses who say that the lockout laws have drastically affected their E.R rooms every Friday and Saturday night. It's a good thing that far less people have been ending up there as a result of violence over the coarse of a weekend, however if you were to ban cars on the road I'm sure we would see a reduction in the amount of casualties from car accidents.

I would be more inclined to agree with some aspects of the lockout laws (ie: no shots after midnight, venues shutting at 3am)

If these laws were applied unanimously across all of the city. The fact that the star, and coincidentally Barangaroo, do not fall under the same laws is grossly unethical at the highest level.

It's not only taken away the people's civil liberties as to whether we're able to take care of ourselves, but then spat in the face of democracy by allowing these venues to continue to operate after hours.

Is it a coincidence that both venues fall just short of the lockout zones?

If it is then the odds would be astronomical.

I never paid much attention to politics before this but this has made me lose faith in the democracy that I thought we were entitled to in this country.

At the end of the day, you (our government) is elected by the people. Your job is to act on behalf of the majority.

With the amount of protest that has been occurring it is clear that you have not done this.

We (Sydney) want these laws changed, this is evident.

I would not be nearly as outraged by these laws if the same laws were applied to venues like "The Star" and "Barangaroo".

Government officials should be investigated because it's clearly corruption on that the highest level that has allowed these venues to remain untouched by these draconian laws you have put in place for the rest of us.

If you fail to overturn these laws, then you have one more person who used to genuinely believe that this was one of the greatest cities in the world. I no longer believe that we live in a democracy, and I'm embarrassed that we as a community allowed this to happen.

Our youth of today have a violence problem, not an alcohol problem.

Why make this city suffer any longer
