There are so many negative attributes to these barbaric laws that I dont think 2500 would cover it.

The bottom line is that Sydney is a dynamic International city. We must strive to keep that intact and preserve the amazing nighttime culture we have. These laws do absolutely nothing to acheive this and are only in place to funnel people into the casino by using the one punch attacks as a scapegoat!!

Please have the initiative to look at what needs to be done with a postive and forward thinking mind not a backwards, draconian one.

Remove the lockout laws from Sydney before its too late.

Thanks  
Joey
