The lock out laws have had s negative impact on me be aid quite a number of bars that I love going to have had to close. My favourite restaurant Jimmy liks has closed. I miss those places. I dont think stopping people enjoying themselves is the problem. The problem in Sydney is that we babysit people instead of making them responsible. Need more police visibility keeping our streets safe. Lock up aggressive people. Soon they will realise that it has consequences for them. What about all those people who provide certain services to the public. It's robbed them out of their jobs. It's affecting tourism. The only winner is casinos. I wonder how many people commit suicide because if gambling debts. How many families are destroyed. How many kids are growing up without mum and dad and miss out on import stuff in life. Wake up. Aminath.
