I am writing to support easing of the lockout laws to a later time. Since the lockout laws have been introduced many businesses including well known restaurants have closed down due the flow on effect of these laws. Sydney has lost a vibrant night life involving music as an art.

I have had international visitors, my friends, visit Sydney from the UK and they have noticed that Sydney at night is not the same as it use to be. It's lost it's "mojo".

Please consider lifting or easing our " Nanny State Lock Out Laws".
