To: Liquor Law Review <[liquorlawreview@justice.nsw.gov.au](mailto:liquorlawreview@justice.nsw.gov.au)>;

The stricter alcohol laws have been proven to work. The main push to relax them is purely so vendors can make more money. However history shows the increased medical, security, social and health impacts borne by the general community and in particular the unfortunate victims are not worth short term profits for a few individuals. Please keep the proven laws intact for the benefit of the entire community.
