Yes keep the lockout laws in place. I am a concerned 64 year old citizen who has become to scared to go out of doors of an evening for fear of being assailed or even killed by some drunken, drug filled moron. I worked in the club & hotel security industry for a period of 10 years and had rarely seen the likes of what has become of our public areas and residential streets. especially after 10pm at night

In all the publicity and media reports not once have I heard mentioned the Responsibly of Service of Alcohol act . Where has this gone? All I have heard are the club and hotel entrepreneurs whinging about loss of income. If they had taken proper care to ensure the responsible service of alcohol then maybe they would had had nothing to worry about. Please keep these laws in place to give decent law abiding citizens a chance to enjoy the lifestyle of our wonderful Country & State.
