Hi my name is Marc Mahoney. I'm an electrician from overseas, working in the Cbd. I'd just like to ask you to consider a better alternative than the implemented current lock out laws. Coming from Europe where nothing this radical exists I can honestly say it was a massive culture shock after all the great things I'd heard and read about Sydney's vibrant nightlife. Of course there should be laws for these thugs who have no regard for any body else but laws that don't affect good working people like me and millions others, who just want to relax and have fun on the weekend after a hard weeks work. I love this city and I'd love to experience the old vibrant Sydney I heard so much about 2 years ago. Thank you for your time.
