I am strongly against the lock-outs laws. The laws are a disgraceful incursion on the civil liberty of the people of Sydney and visitors to our city.

There are many better ways we can tackle the issue of violence in our city:

1. More police presence in problem areas.
2. Grater accountability and penalties for licensees when their venue has reoccurring issues with violence.
3. 24/hr public transport

I could go on but other people would make the arguments against the lockout better than me. I have thought about it a lot and cannot overstate how strongly I disagree with the laws, please remove them!
