It's time we reviewed these laws and allow the citizens of this state to regain our nightlife. Places like the casino and Barangaroo should have the same laws applied or the laws repealed. 24 hour transport should be introduced to allow people to move around the city. Having the casino exempt is creating an unnecessary bottleneck of violence and gambling. There isn't entertainment there that I wish to see. The entire entertainment complex is superficial and isn't providing NSW an international standing. Small bars and licenses should be encouraged. We the people want our city back. Not to flock like sheep to the only venue the government deems eligible.
