Dear reviewer,

I just wanted to say that as a professional in the hospitality industry, I have seen no change in the drinking behavior of patrons.

On a personal level, I often finish working after the 1:30 lock out and have nowhere but home to go for a drink after a long shift.

I feel these laws have punished me and my colleagues unfairly.

Please change them and find a real solution to the binge drinking and violent Australian Culture.

Kindly,

Pierre Miller
