Since moving to Sydney late last year from New Zealand I have seen how backwards the premier has made this city... I remember hearing the stories of Sydney being the cultural capital of the Southern Hemisphere and now it's a ghost town populated with thugs and casinos! Newtown once a vibrant nightlife area is now full of angry characters all getting pushing into the Marley bar (the only bar open) in the area past 1am! Please I am begging you stop these ridiculous Christian laws the are being pushed thru by and group of politicians that haven't been out for night for at least 20 years!

Yours sincerely  
A very disappointed Sydney resident
