To: Liquor Law Review <liquorlawreview@justice.nsw.gov.au>;

I am Professor of Mental Health Nursing. The misuse of alcohol in Australian society has caused untold physical and mental health issues across our communities. We already have laws - please enforce them. eg) Responsible service of alcohol appears to fall on deaf ears in many places. I have witnessed, on numerous occasions, blind drunk people being served more alcohol. Lock out laws are one measure, but please bring them in across the entire state. It isn't just an issue restricted to inner Sydney. Doesn't every community deserve to be protected? The Coward punch, inter familial violence, physical and mental health issues are often linked to alcohol. Enforce the laws we have, let Australian society know that being drunk isn't cool. Its about culture change.

Regards,

Lorna Moxham
